Getting Started

We'd like to thank you for purchasing the Exams Assist Module. Exams Assist is a module within a family of modules provided by **SchoolWorkSpace** for school/colleges, these includes the Parents' Evening, Attendance Tracking, Messaging, Room Bookings, Gradebooks, Homework and Seating Plans.

Once you have approved the data share with **SchoolWorkSpace (SWS)** you will be able to get started.

Visit the following site: schoolworkspace.co.uk

Select – **Login / Register**

Select – **Register with SchoolWorkSpace**

Enter the email address that is recorded in the MIS, then you will be emailed a 6-digit code as part of the verification process. Enter this into the SWS and you will be asked to create and confirm a new password.

Once logged in, you will have been assigned as an Admin user so that you can manage and add other users to SWS.

Data Sharing

Different MIS

Depending on your schools MIS some data/features may or may not be supported. This maybe that we haven't yet implemented that feature or it may be that we can't support that feature. A table of the currently supported data is <https://schoolworkspace.co.uk/help/MIS>

Xporter On Demand (SIMS)

Schools/Colleges that use SIMS will use Xporter for sharing data as it includes some Exam data not available via Wonde. The signup process is quite simple, the information is extracted on your order (following agreement of the data share) – do some checks and then call the Xporter API to send a data sharing invite to your data contact. They can then either click on the link in the invite or login to <https://xporter.uk> and authorise the data sharing request. Some data items are optional so they can enable them if required. Once authorised Xporter calls back to SchoolWorkSpace and we start to provision your account with the school data. Once finished we send you an email to inform you it's all ready and you can login.

To see what data is being shared between the centre and SchoolWorkSpace, select **School Settings | Data | Xporter on Demand Settings**. You will be able to view the data items that are being shared, but also other possible data items that could be shared for other modules available for purchasing from SchoolWorkSpace.

Items that need to be shared for the purposes of using Exams Assist:

Enable Attendance Read & Write – The ability to write attendance data back into the MIS (write back only for SIMS currently) for candidates that were present in the exam.

Exam Timetable – To enable you to get the invigilators' availability for the exam season and to be able to schedule them to the Exam Room.

Wonde (iSAMS and Teacher Centre etc.)

For Wonde the process is similar to Xporter we check the information on your Order and call the Wonde API to request access to your school data. Your school Wonde admin will get a notification and once authorised we get a call back so we can provision your school with data.

For Wonde only core school data is covered, no exam data is included. Please include DOB and UPN in the data so we can use these data items for matching students to exam entries.

You can check/change the options for data sync by visiting **School Settings | Other Settings | Wonde Settings**.

Arbor

For Arbor we have a custom integration with the Arbor graph API. This allows us to fetch the student data and candidate / exam entries from Arbor.

There is a bit of manual setup required by us to create the data sharing request via Arbor, once done and your school grants the request we get sent an email, we can then setup your school. Once authorised you data syncs in about 15 minutes.

You can check/change the options for data sync by visiting **School Settings | Other Settings | Arbor Settings**.

Bromcom

For Bromcom we have custom integration with the Bromcom API. Setup is a little different as your Bromcom admin enables us as a Partner rather than we initiate the request. Instructions on how to do this are <https://schoolworkspace.co.uk/help/Bromcom> once done let us know (Bromcom doesn't notify us directly). We then setup your school account with the Bromcom settings and it provisions in a minute or so (the Bromcom api is nice and fast)

You can check/change the options for data sync by visiting **School Settings | Other Settings | Bromcom Settings**.

Understanding the Exams Assist Tabs

Exams Assist consists of a number of Tabs that sits within a season and has been developed to follow the process of a season from the Entries to Running the Exam on each day.

Overview – This tab will appear when you first log into the module. Once the entry/access arrangements file and the data has been sync'd then this tab will display a breakdown of information for that season – Valuable Season Deadline Dates, Entries and Access Arrangements Statistics. If your MIS is SIMS and the season is seated in SIMS then there is a button to request a refresh of the exam timetable data from SIMS Exams.

Exam Entries – This tab will appear when the **Statement of Entries** file has been uploaded into Exams Assist and will show the entries that have been made for candidates within your centre.

Access Arrangements – This tab shows the exams for each student with Access Arrangements and allows switching on/off Laptop, Computer Reader etc. per component.

Results - This tab will appear when the Exams Officer has imported a results file for that season (this tab is optional, it will not display automatically).

Invigilators – This tab will appear when the **Statement of Entries** file has been uploaded into Exams Assist. This is created at this time as Exams Officer may need to obtain their availability early. It will also appear when a new season is created such as an Internal Season.

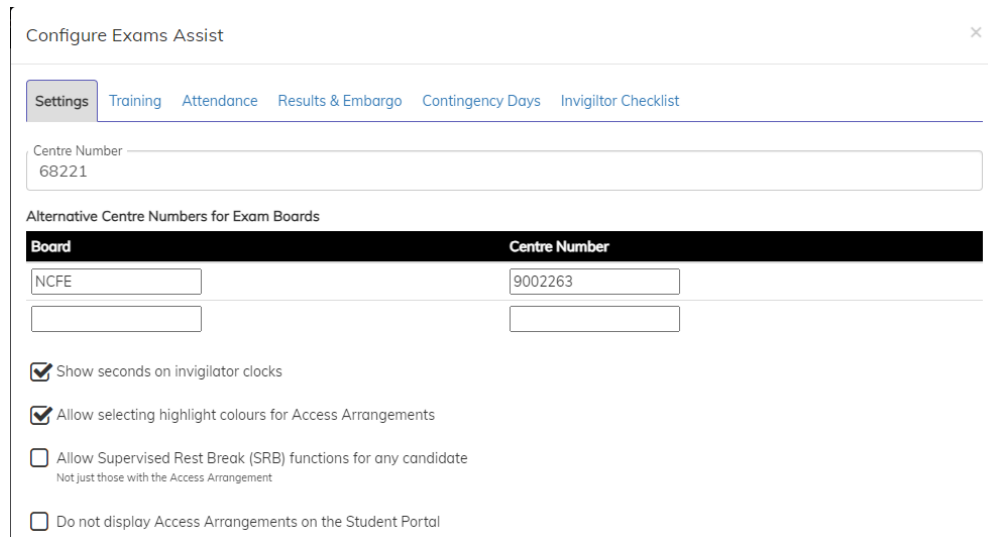

Candidate – This tab displays all the candidates that have an exam in that specific season as well as displaying all the entries that they have.

Timetable/Seating; Rooms; Schedule and Daily Planner– This tab will appear when the EO builds the timetable from the Overview Tab. Once the timetable has been created the Exam Officers are able to assign rooms to examinations, once assigned to a room these will be populated in the scheduler ready for scheduling the invigilators.

Events – This will display any events that occurred during an exam, such as Toilet Breaks, SRB etc.

Exams Assist Configuration

To configure Exams Assist, navigate to **School Settings | Subscriptions | Configure Exams Assist** or alternatively, **Overview Tab | Configure Exams Assist (these are generic settings that applies to all seasons)**. The configuration page is broken down into a variety of tabs – Settings, Training, Attendance, Results & Embargo, Contingency Days and Invigilators Checklist.

Configure Exams Assist

Settings Training Attendance Results & Embargo Contingency Days Invigilator Checklist

Centre Number
68221

Alternative Centre Numbers for Exam Boards

Board	Centre Number
NCFE	9002263

Show seconds on invigilator clocks

Allow selecting highlight colours for Access Arrangements

Allow Supervised Rest Break (SRB) functions for any candidate
Not just those with the Access Arrangement

Do not display Access Arrangements on the Student Portal

Settings Tab

Centre Number – Enter the Centre Number as registered with each Examination Board.

Additional Centre Number – If the centre is accredited with a number of examination boards, it's possible to record these such as NCFE.

Show seconds on Invigilator Clocks – Check this box to display the seconds' arm on both the analogue and digital clock on the Exams Viewer Screen.

Allow colours for the Access Arrangements – Select this option if you'd like to assign a colour to any of the access arrangements in Exams Assist. These colours will appear on the paper and electronic version of the seating plan. Once the electronic register is completed this box (seat) will change to the attendance colour (See [How to allow selecting a Colour for Access Arrangement Type](#) for more details).

Allow SRB functions for all Candidates – Normally the Supervised Rest Breaks (SRB) functionality are only available to candidates that have this arrangement in the AA tab. However, check this box if the centre would like this functionality to be available to all candidates i.e. for Internal/Mock Examinations.

Do not display Access Arrangement on the student portal – Select this option if the school doesn't wish for Parents and Candidates to see the Access Arrangements Tab on the portal.

Do not list candidate name if only 1 or 2 in a room – By default in the schedule tab, if there are one or two candidates assigned to a room, their names will appear on the schedule. Select this option if you do not wish for these names to appear.

Show Reg Groups when editing exam seating plan – Select this option if you require the reg groups to appear next to the candidates name when creating seating plans, beneficial for mock exams when candidates are potentially seated by registration groups.

Highlight the first exam in the seating plan if there are multiple – By default, the first exam on the seating plans, attendance registers do not have a colour around the set. If you require a colour to appear to distinguish exams in a room select this option.

Show laptop icon on seating plans if laptop AA (rather than requiring it to be selected in the AA Tab) – By default, a staff member would need to select if a candidate has requested a laptop for each exam they are sitting. However, if the policy of the centre is that if a candidate is entitled to a laptop then they get this for every exam, then select this option.

Show Year Group on invigilators candidate list – To display the Year Group in the Attendance Register.

Show Reg Group on invigilators candidate list – To display the Reg Group on the Attendance Register.

Show Category of Risk Icon on invigilators candidate list – If candidates need to be identified on seating plans for behaviour issues then select this option. There are three categories to choose from, High, Medium and Low. This is an attribute of the student record in SchoolWorkSpace and needs to be entered by a staff in the Safeguarding role.

Enable retake tracking for entries – This option will allow schools to scan their entries this season and previous seasons to identify candidates that are resitting any examinations. If a centre charges all candidates who resist exams then this is a great function to help with this process.

Enable QR Code Scanner – By default the QR Code Scanner Tab will not appear on the invigilators portal. If the scanner is required then select this option.

Publish Exam Timetable visible on public site – This option will enable the public to view any timetabled exams both internal and external on their school website, using an iframe. Copy and Paste the URL below this option to the schools website to embed the timetable into the website.

Use Invigilators Forename and Surname – By default invigilators names will be the staff display name e.g. Mr J Smith. With this option the name will be Forename+Surname e.g. John Smith

Edit invigilator names – By default invigilator names will sync with the staff that are imported from the MIS. With this option selected you can edit the invigilator names and they don't sync from the linked staff record.

Training Tab

Additional Invigilator Training Items – To display additional training needs from the ones identified in the Access Arrangements Settings, these can be added here and then they will appear in the invigilator training records popup box.

Attendance Tab

Settings Training **Attendance** Results & Embargo Contingency Days Invigilator Checklist

Attendance codes for writeback

Student expected to be in Exam

Exam Present Attendance code
/ : Present (IN)

Exam Late Attendance code
L : Late but arrived before reg closed (LATE)

Exam Absent Attendance code
N : No reason yet provided for absence (OUT)

Mark codes to not update e.g. I,M,\A

AM Attendance Period
AM Session

PM Attendance Period
PM Session

Record Exam Attendance by lesson/period.
Not AM/PM

Attendance Code for Write back – Select the attendance code that would appear against each exam code within the Actions menu in the Attendance Tab in the Daily Planner.

Note – Lesson Attendance will automatically be enabled and synced back (SIMS Only), there is no separate setting to enable this.

Results & Embargo

It is possible for the Candidates (only) to view their results on their portal (Parents are unable to view these unless the student selects the option to **Share Results with Parent**). For these to display then the results file will need to be imported into Exams Assist.

Configure Exams Assist

Settings Training Attendance **Results & Embargo** Contingency Days Invigilator Checklist

Exam Results

Results Embargo - Only Exams Officers / SMT can see results.
This overrides the results day embargo below.

Students can see results in Portal when they login
Requires Result Files to be imported into SchoolWorkSpace.

Students can see results from the link in an email
Requires Result Files to be imported into SchoolWorkSpace.

Edit Message For Results

Embargo Until 12:00 

Embargo Staff Until 08:00 

Embargo in place the day before the results day and until this time on results day

Embargo in place the day before the results day and until this time on results day (for staff)

Embargo Message
Results will be available from 12:00 on the 9th of January 2025
To display when Embargo is active

Results Days

09/01/2025 

Results Embargo – Only Exams Officer/SMT can see results – When this option is selected, only staff with Exams Officer Access Rights will be able to view results in Exams Assist (this applies to all seasons).

Students can see results in the portal – Select this option if the candidates should view their results on their portal, the results will be visible unless any embargo are in place.

Embargo Until/Embargo Staff Until – This is the date that the embargo will be valid too, after this date the results will be available for the staff and candidates to view in their portal (it's possible to set different times for each).

Embargo Message – Enter the message the candidates should see when the embargo is in place. This message will be visible in the portal under the Result Tab.

Results Days – By entering the results date, the results will not be available for the candidates to view until the Thursday of that week.

Contingency Days

Enter the dates and a description for the contingency dates. These dates will appear on the candidate's timetable and on the school's published timetable on the website.

Settings Training Attendance Results & Embargo **Contingency Days** Invigilator Checklist

Contingency Days

06/06/2024 	Afternoon
13/06/2024 	Afternoon
26/06/2024 	Full Day

Invigilators Checklist

Configure the content that needs to be displayed as the checklist on the invigilators portal. It is possible to copy the JCQ checklist and then amend, great for reducing the amount of paper used per exam room.

End Exam Signature Declaration
I declare that these exams were done in accordance to the JCQ Regulations.

 Copy standard JCQ checklist

Include standard 'Warning to Candidates has been read out' checkbox

Close  Save

Administration in Exams Assist

Allocating access to staff

Navigate to **Schools Settings | Staff Roles**.

Staff Name	Login	Email	Last Activity	Admin	Exams Officer	Exams Aid	Teaching	SMT
Mrs J Darby			11 Sep 2022	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>

Teaching – For staff to be able to login to exams assist and view their entries, access arrangements and results for candidates, they will need to be assigned to the **Teaching** security group. For teaching staff to be able to view candidate information and assign them to a level for the purpose of creating tiered exams they will need to be in this group.

SMT – Staff assigned to this security group are able to view all entries and the candidates with access arrangements. They can Authorise or Decline any changes requested by teaching staff. Once the entries have been authorised by the Head of Department (Faculty), a member of SLT is able to approve these by selecting SLT Approve.

Exam Officer – Staff assigned to this security group are able to manage the settings for this Module, upload entries, upload access arrangements, allocate and manage invigilators, schedule the invigilators/staff and manage the printing of candidate cards which will allow the invigilators to mark the registers electronically using the QR code.

Exam Aid – Staff assigned to this security group will be able to view the Daily Planner tab. This tab gives them the ability to view exam details, missing candidates and complete the AM and PM attendance registers.

SEN – Staff assigned to this security group will be able to access and manage the Access Arrangements Module within EA, they will be able to import the applications from the JCQ Portal.

Note – Staff Emails need to be set in the MIS as **Work** and in SIMS also marked as **Primary**.

IMPORTANT – Invigilators do not require to be in a security group. They will be able to access their portal without a security group.

Log-in Options

There are a number of options available to centres when selecting how you'd like staff to log into Exams Assist. Navigate to School **Settings | Staff Roles | Staff Login Settings** and select the most appropriate for your centre.

Staff Login Settings ×

Staff Can Login with any email
Work Email (if present) only if not selected

Staff Logins require Multi Factor Authentication
Using an Authenticator App

Require staff to login daily
Session Timeout 12 hours

Require invigilators to login
Invigilation Magic Links will expire after 12 hours

Enable MyLogin
Allow Students & Staff to login using the MyLogin.com service from Wonde

Enable Student Dashboard
Attendance gauge student dashboard visible for Parents, Students and Staff

IP address Whitelist

No Multi Factor challenge if originating from Whitelisted IP address

Password Policy - The password policy has been increased, so staff members will need to use a strong password (At least 8 characters, one lowercase, one uppercase, one number, and one special char (!*#@#\$%~^&+=,.`), and not include (<>).

Setting up Two-Factor Authentication for increased security

Navigate to **School Settings | Settings |** and select **Staff Logins require Multi Factor Authentication**

Multi Factor Authentication. This will mean that when a member of staff tries to log into Exams Assist and following entering their password, they will need to obtain the 6-digit code from the Authenticator App and enter it into Exams Assist when prompted.

Whitelisting an IP Address

To enable staff to use Exams Assist in a location that's safe, such as a school it's possible to whitelist this IP Address so a member of staff will not need to use multifactor authentication in that location. Navigate to **School Settings | Settings** and ask the IT department to enter the IP Address of the safe location.

Staff setting up the Multi-Factor Authentication

Each member of staff that access Exams Assist will be required to setup the Multi-Factor Authentication, this is a very simple process, follow the steps below:

Step 1 – Download the **Microsoft Authenticator App** from the app or google play store.

Step 2 – Log into Exams Assist and Navigate to the main menu and select **Setup Two Factor Authenticator**.

Step 3 – Scan the QR Code into the Authenticator App, it will then add your account details into the authenticator app. Then select **add this Two Factor Authentication to my Account**. You will then need to provide the 6-digit code to link the authenticator with your user, once verified the setup process is complete.

Step 4 – You will be asked to provide a 6-digit code from the Authenticator App to log into Exams Assist.

Multi-Factor Authentication Recovery

If a member of staff is unable to log in as they are unable to access the authenticator app, it's possible for the school admin to email the member a recovery code to get them into Exams Assist. Navigate to **School Settings | Staff Roles** and search for the member of staff that have doesn't have access to their code. Click on the QR Icon and select Email Two Factor Reset Code, the recovery code will be emailed to the address stored in SchoolWorkSpace. The member of staff will need to enter this code into the Verification dialog box.

Once the member of staff has gained access to the software, they will be able to set-up the multi-factor authenticator again later.

Invigilator Log-in

If this option is selected, then the magic link sent to invigilators to access their portal will expire in 12 hours and therefore they will require to log into exams assist to view their schedule. Invigilators can set their own password by selecting Register with SchoolWorkSpace and then following the prompted instructions. Once logged in they will remain logged in unless the centre has opted to require staff to log in daily.

IMPORTANT – Invigilators DO NOT need to be allocated to any Security Groups within SchoolWorkSpace, their magic link will just work.

Season Settings

To manage the settings for a season, navigate to the **Overview | Edit Season**. These are broken down to **Details, Invigilators** and **Portal**.

Note – These settings are season specific, whereas Configure Exams Assist is applicable across ALL seasons.

Details Tab

Season Start/End Dates – This is the date that the season starts and ends, exams will not be able to be scheduled if the end date has past.

Date – Set the date to ensure that deadlines/key dates are not missed.

Candidate Seating – Select this option if seating will be done in EA and not in the Schools MIS System.

Season Type – Identify if the season is an Internal or External Season. If internal is selected then clash flags will not appear in the timetable tab.

Season has resits – This will allow schools to scan the entries to identify candidates that have been previously entered for an exam.

Note – Ensure that all previous years' entry files have been imported into EA before scanning for retakes.

Show Results Tab – The ability to turn off the ability to see the results tab, as this will not be applicable to all seasons.

Managing Exam Entries in Exams Assist (Review of Entries)

The purpose of this tab is to give staff the ability to view/check and confirm their entries. This has been created as the review process, entries are initially made in the MIS.

Uploading Entries and Access Arrangements (Arbor and Bromcom)

For these MIS systems SchoolWorkSpace can interface direct with the MIS rather than go via a data aggregator like Wonde or Xporter. This allows data such as entries and access arrangements made in these MIS can be directly accessed without requiring a manual export/imports like SIMS.

Uploading Entries and Access Arrangements (SIMS)

In SIMS once the entry marksheets are marked as **Data Entry is Complete** the amendments can all be managed in Exams Assist so all changes can be audited in one location. To upload the Entries and Access Arrangements for a season, navigate to the Exams Assist Module select the **Exam Entries Tab | Actions | Upload Statement of Entries or Exam Entries Tab | Actions | Upload Candidate Special Arrangements**.

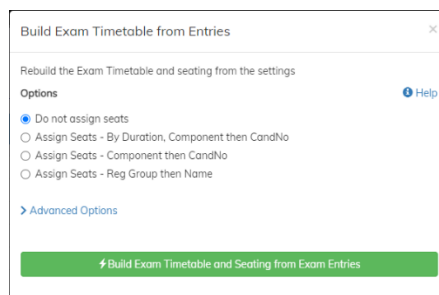

Locate the TSV file that you have previously exported from SIMS Exams, select the file and then submit.

IMPORTANT Note – Ensure that when you create the entries file that you select **Fee Information – All** and **Include Component Information** as this is required for the Access Arrangement Tab.

Detailed instructions can be found: <https://schoolworkspace.co.uk/Help/ExamEntries>

Once the file is uploaded and Component information is contained, the build timetable popup box will appear. By rebuilding the timetable any amendments made in the file will be reflected in the attendance registers/seating plans etc.

Importing Entry Files

Electronic entry/amendment files (EDI) that are sent to the exam boards (from any MIS exams module) can also be directly imported into Exams Assist instead of importing the SIMS Statement of Entry TSV file or direct import from Arbor or Bromcom. You can import the initial entry file and then subsequent amendment file for any examination board.

Firstly, create an exam season in Exams Assist and add the candidates that are contained within the entry file. Navigate to the **Overview Tab | Create New Season**, then the **Candidate Tab | Actions | Add a Group of Candidates**. Once the season has been created and the candidates added, navigate to the **Overview Tab | Actions | Upload** and select **EDI Registration, Entries, Amendment files (E*.X*, A*.X*)** from the file type dropdown and browse for your entry/amendment files.

Note – It is possible to select a number of entry/amendment files, Exams Assist will import these in the correct order.

REMINDER – As schools usually create an entry file for the exam boards once all checks have been carried out i.e. departmental check and parental checks, this method of importing the entries is not suitable if you want to use Exams Assist for the entry checking process.

Change the file type to **EDI Registration, Entries, and Amendment Files** and select **Submit**. The files will be imported into Exams Assist and an import log popup box will be displayed.

Multiple Exam Seasons

If you wish to import entries for multiple seasons i.e., September Entries, November Resits, January Entries, Internal Exams and June Entries, this is possible, just import each file and they will appear as different option in the seasons drop down menu. To set which season is to be viewed as the default, navigate to **Actions | Set as Default Exam Season**.

Closing a Season

Once a season has come to an end and you no longer wish to make any further amendments you are able to close the season. By closing the season, you will be taking a Snapshot of the current season, and it will be

flattened so data is visible but no longer editable. To close a season, navigate to **Overview | Edit Season | Close Season**.

Note – A Season can only be closed when the season date has come to an end. It is not possible to close a season in the future.

Deleting a Season

If a season has been created by mistake or you no longer need to keep the data held within that season, it is possible to delete this. This option is non-reversible so care should be taken when selecting this option. To delete a season, navigate to **Overview | Edit Season | Delete Season**.

Allocating Entries to Staff

To allocate the entries to the teaching staff for authorisation navigate to the Entries tab and select the elements that needs to be checked by the teacher. Once selected, select **Actions | Assign Staff to Selected**. Search for member(s) of staff in the system and allocate them to these entries. Staff will now be able to view both entries and access arrangements in their account.

The entries tab is split into five sub tabs – Exam List, Queries, Incorrect, Withdrawn and Additional.

Exams List – This displays all the entry elements that need to be checked by the members of staff. If the Exam Officer selects an element, they are able to view the candidates entered for that specific element.

Queries – This tab will filter out all the candidates that have been identified by the classroom teachers as a Query. When a teacher selects this option, they are prompted to provide a reason for this selection. This tab is able to be reviewed by the SLT so they can approve or decline this request.

Incorrect – This tab will filter out all the candidates that have been identified by the classroom teachers as Incorrect. Again, when this is option is selected, the teacher is prompted to provide a reason for this. Again, SLT will be able to approve or decline this request.

Withdrawn – This tab will display all candidates that have been withdrawn from any entries. When a member of the SLT approves an incorrect entry and this is removed in the MIS, when imported into Exams Assist (For SIMS when a new entry file is imported; For Bromcom/Arbor when data is synced), and this entry will move from the incorrect tab to the withdrawn tab. This is a great tool for auditing withdrawn candidates as all messages written by the teaching staff and SLT will remain against the removal.

Additional – This tab will display all the candidates that have been added by classroom teachers. The Exams Officer will be able to view all these additional candidates. Once approved by the SLT, and a new file is imported, the candidates name will be removed from the Additional tab and will appear as a normal entry in the Entries tab for the classroom teacher to mark as correct.

Adding the teaching group column to the Entries

To assist departments with the checking of their entries it is possible to map the entries to a subject in the MIS so that the Class Identified is displayed in the table. To map these, navigate to the Link this Exam to a Teaching Subject box and select the subject you'd like the Class Identifier to display within the entries.

Note – Once the group column is populated this is not automatically refreshed each time the member of staff opens the entries. To refresh this data the member of staff will need to select the Refresh button within that box.

External Candidates (SIMS Only)

It's possible to import the entries for the external candidates, you can import them in the same way as you do the internal candidates. When exporting the entries from SIMS, just remember to export **all** instead of **Int**. On import they will appear in the entries with all the internal candidates and will be identified as **External**.

Note – The External Candidate **MUST HAVE a UCI number in SIMS Exams**, or the candidate will not be imported into Exams Assist.

Retake Candidates

To assist schools with managing the resit candidates, Exams Assist can scan previous exam seasons and identify any entries that are retakes. Navigate to the **Entries Tab | Actions | Scan for Retakes**, once selected all previous seasons will be scanned to see if any elements in the scanning season have been entered previously in a different season.

Note – Make sure that you have enabled this functionality in the **Exams Assist Configuration** page.

Once the scan has been completed any subjects that have a resit will appear with the number of resits and the total cost (this cost comes from the entry fee from the statement of entries).

Board	Level	Code	Name	Subject	Status	Assigned To	Correct	Incorrect	Query	Blank	Retakes	Total	Fees
DOM	GCSE/9FC	CC	Adison Allen		For Review		0	0	0	1	1 @ £17.23 = £17.23	1	£12.23
DOM	GCSE/9FF	FF	Sabrina Anderson		For Review		1	0	0	0	1 @ £28.45 = £28.45	1	£23.45

On selecting the subject, you will be able to view the candidates that have been identified as having a resit.

CandNo	Name	Reg	Groups	Retake
5016	 Jamie Bar nett (Jamie Barnett)	J	13D/Ar1	

It is also possible to add a fee on to the exam cost or if a fee isn't included in the statement of entry, then it's possible to add this manually by selecting a subject, **Actions | Retake** price is Exam Fee Plus and then enter the amount in the Retake Fee Box.

Note – If exam fees are added manually and a subsequent retake scan is carried out, all manual changes will be lost.

Set Retakes Flag and Price ×

Setting the Due Dates for a season

To assist Exams Officers to keep track of the various deadlines they have to adhere to, Exam Officers are able to populate these dates into each Exam Season. To enter these dates, navigate to **Overview | Edit Season | Details**. The Internal Entries Review Due Date will appear on the teacher's homepage in SchoolWorkSpace.

Season Start:	03/02/2023	Season End:	09/02/2023
Internal Entries Review Due Date:	10/02/2023	Modified Papers Deadline Date:	31/01/2023
Amendments Deadline Date:	15/03/2023	Very Late Deadline Date:	31/03/2023
		Entries Deadline Date:	21/02/2023
		Hide Staff Entries Review After Date:	10/02/2023

It is also possible to add a due date to an individual entry or a group of entries, these will also display on the teacher's homepage, but next to the entry rather than next to the season name. Navigate to the Exams Entries tab, select the entries the **Actions | Set Entries Review Due Date**.

To hide these entries from Teaching Staff/HOD, navigate to **Overview | Edit Season | Details** and enter a date for these entries not to be shown to the members of staff.

How to view an individual Candidate Entries and Timetable in SchoolWorkSpace

Any member of staff with access to SchoolWorkSpace are able to view an individual candidate, they can use the global search at the top of the software. Search and select a candidate and any member of staff will be able to view the candidates Entries, Timetable and Access Arrangements.

Candidate Details		Entries	Timetable	Access Arrangements
Mary Turner				
June Exams 2023				
: WJEC/GCSE				
3120UB	RS Option 1B Christianity & Islam			£26.96
	15/05/2023 09:00	3120UB0-1	Religious Studies Unit 1B: Written	120m
3125QT	RS (Short Course) Cash-in			
3300PH	Mathematics Higher			£41.40
	23/05/2023 09:00	3300U50-1	Maths UNIT1 Higher Noncalculator	105m
	14/06/2023 09:00	3300U60-1	Maths UNIT2 Higher Calculator	105m

Note – For the Entries; Timetables and AA information to view on the candidate's homepage, you need to select **Published to the Parental & Students Portal - Exam Entries and Timetable can be viewed when they login to SchoolWorkSpace**. This option can be found **Overview | Edit Season**.

Managing the JCQ Application

Access Arrangements can be fully managed in Exams Assist, to help with this process it's possible to import the Access Arrangements application created in the JCQ portal by the SEN Department. This area can help schools manage their applications centrally.

How to download the Applications from the JCQ Portal

1. Log into the JCQ Portal and select **Access Arrangements Online**.
2. Select **Find Application** and then **Search All Categories**.
3. All applications will appear in the list, scroll to the bottom and select **Export as CSV to Download**.

Allocating Access to the Applications in Exams Assist

In Exams Assist, navigate to **School Settings | Staff Roles** and allocate the **SEN** access rights to the member(s) of staff managing Access Arrangements Applications at the school.

Note – This will mean that the SENCO and their team will be able to manage the Access Arrangements for the school. This information can then be shared easily with all staff within the school.

How to import the applications

1. Select **Access Arrangements** in the main menu.
2. Navigate to the **Application Tab | Actions | Upload JCQ Applications CSV**

Note – As all applications will be imported, it's possible to archive all applications i.e. any candidates that have left the school. Navigate to **Actions | Archive old Applications**.

How to view an applications

Once the applications have been imported, it's possible to view each application by selecting a candidate's application reference number.

Details tab - The details tab will show the whole application as it appears on the JCQ portal (It is not possible to edit any part of the application).

Note - Leavers – If your school allows ScoolWorkSpace to access Student Leavers then these will appear in the Leavers Tab under Students.

XoD Settings

Data-Sync daily
every morning

Include Pre-Admission Students
check to include accepted pre-admissions from Xporter

Include Student Leavers
check to include recent leavers in data feed from school

These will continue to appear until they are permanently deleted automatically by SchoolWorkSpace, this is set by the school in the **Data Retention Settings**.

Access Arrangements tab - the access arrangements tab will display any arrangements that the candidates currently has in Exams Assist. If the school is new to Exams Assist then no arrangements will be displayed, arrangements will need to be assigned to the candidate by selecting **Add** (See below).

Applications tab - the applications tab will list all applications that the candidates has on the JCQ portal. If a candidate has multiple applications (current or expired) these will show here on this tab.

Managing Access Arrangements in Exams Assist

To fully manage Access Arrangements in Exams Assist and not in other MIS, navigate to the **Overview Tab | Configure Exams Assist** and **enable Manage Access Arrangements in Exams Assist**. Once selected any future exams created in Exams Assist or Entries imported, all Access Arrangements will be populated from the information contained in this area, there is no need to import a file from the MIS.

The Students Tab will list all the candidates that have Access Arrangements at the school. However, if the school is new to Exams Assist then this list will be empty, but their applications will show in the Applications Tab.

Adding a Candidate that doesn't require a JCQ Application

If a candidate needs access arrangements but doesn't need to be applied for through JCQ, navigate to the Student Tab and then select **Actions | Add Student**, then Search and select a candidate.

Once a candidate has been selected you will be able to add an arrangement(s).

Start Date – Allocate a start date to the arrangement.

End Date – If the arrangement is temporary then apply an end date, however, if the arrangement is permanent then leave the date blank.

Type – There are different types of arrangements available - Temporary; Long-Term; Emergency and Medical. Select the one that most applicable for the arrangement.

Subjects – If the candidate is allocated an arrangement for specific subjects then select the subjects the candidate should have the arrangement for. This list is linked to the subjects pulled from the Timetable and also linked to the subjects assigned in the entries tab.

Note – If a start date an end date (or if the end date is blank) then the arrangement will appear in green. If the arrangement expires then it will change to red, helping schools to manage and ensure all access arrangements are in date.

Adding a Candidate that has a JCQ Application

If a candidate has an application on the JCQ Portal then navigate to the Applications Tab and then select a Candidate.

If the candidate already has any Access Arrangements in Exams Assist, then these will appear in the list. To apply the Start and End Date and Type in accordance to the application, simply deselect the arrangement and select again. This will then automatically populate the start/end date and also the type (if there is an application then the type will also be set to long-term).

Note – If the application doesn't have an end date or if the Start and End Date are the same, then these will not applied to the Access Arrangements start and end date. A Start and End Date will need to be added manually.

Expired Application

When an application has expired then the Access Arrangements will be highlighted in Red, this will indicated that the End Date has lapsed. A new application will need to be done in the JCQ Portal and a new file will need to be uploaded. Once uploaded two applications will now appear within the candidate record. As there will now be a new End Date, there will be an option to apply this new End Date to all Arrangements that the candidate has.

Access Arrangements Applications

Set End Date to 2027-03-10

25% extra time

Starting 16/09/2022 End 10/03/2027 Type Long-term Subjects All Subjects

How to Attach Documents

To attach documents to a candidate such as the J8 Form or Evidence of needs, navigate to the Students Tab, select a candidate, then attached a document.

Printing Access Arrangements

To print a selection of Access Arrangements, navigate to the Students Tab, filter on the group of candidates to include in the report. Navigate to **Selected | Print Selected | Access Arrangements List**.

Emailing Access Arrangements to Candidate/Parents

To email a selection of Access Arrangements, navigate to the Students Tab, filter on the group of candidates that needs to be emailed.

Navigate to **Selected | Send email to Parents/Students**. To include a list of the candidates Access Arrangements include the following token - `[[ExamArrangementsList]]`

Removing Access Arrangements from a Group of Selected Candidates

To remove access arrangements from a group of Candidates, select a group of candidates from the students tab, then **Selected | Clear Access Arrangements for Selected**.

Managing Access Arrangements in Exams Assist

It is possible to view the candidates with Access Arrangements within an Element Entry List. Furthermore, it is possible to record the papers that have been ordered from the JCQ portal; the modified papers. It is also possible to record the candidates that wish to use a laptop for a specific exam and the candidate that use computer readers in an exam. These are recorded against the Component information so you can identify by the exact paper the modified papers that are required per exam.

Access Arrangements from Exams Assist

If the Access Arrangements are being managed in Exams Assist, then the data will be automatically populated once the Entry File has been imported, or for Internal/Mock Exams as soon as the exams has been created within the Timetable/Seating Tab (See [Managing Access Arrangements in Exams Assist](#) for more details).

Importing Access Arrangements (Arbor/Bromcom only)

For Arbor and Bromcom Schools the direct API implementation means that the Access Arrangements in the MIS are imported with the rest of the school data so there is no need for a manual export / import.

Importing Access Arrangements (SIMS only)

Firstly, you must upload the candidates' Special Arrangements from SIMS Exams. This is done in the same way as uploading the statement of entries by uploading a TSV file containing the Special Arrangements data. Navigate to the **Access Arrangement Tab | Actions | Upload Candidate Special Arrangements**, locate the file and upload. More information can be found in the dedicated help page <https://schoolworkspace.co.uk/Help/ExamEntries>

Access Arrangement Settings

Once the Access Arrangements file is uploaded (or managed in Exams Assist), there is a need to indicate which arrangements require an ordering of Modified Papers. Navigate to the **Access Arrangement Tab | Actions | Access Arrangements Settings** (these setting will save across all seasons).

Access Arrangements										
Icon	Arrangement	Count	Staff Required	Modified Paper	Laptop	Computer Reader	ARA	Extra Time	Highlight	Name Highlight
⌵	Supervised Rest Break	37	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
⌵	25% extra time	44	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
⌵	Separate Room	7	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

Select the arrangements that require a modified paper order, laptop, computer reader and a separate room. These arrangements will only be the ones that appear in the appropriate Tab in the Access Arrangement Tab.

Exam Officers will also need to identify the arrangements that require a staff member to be assigned to the exam room i.e., a Scribe, Reader etc. This will be used later in the invigilator / scheduling tab.

Alternative Rooming Arrangement (ARA) – As JCQ has now identified candidates that require a smaller room rather than a separate room to be ARA an icon has now been added to identify this in the Access Arrangements Tab.

How to allow selecting a Colour for Access Arrangement Type

To allow colours to be allocated to an access arrangement type, navigate to **School Settings | More Settings | Exams Assist Configuration** and enable **Allow selecting highlight Colours for Access Arrangements**. Once selected the EO's will be able to allocate a colour to a number of Access Arrangement types and also assign a different colour to the AA name.

Note – Only one colour can be displayed in a seat (box) on the seating plan. Also, on the electronic register once the attendance has been taken, then the attendance colour will be displayed in the box.

Icon	Arrangement	Count	Staff Required	Modified Paper	Laptop	Computer Reader	ARA	Extra Time	Highlight	Name Highlight
	Supervised Rest Break	37	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
	25% extra time	44	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
	Separate Room	7	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

How to change the Sort Order

Select the following icon and drag the arrangements into the order of choice.

How to change the Access Arrangement Icons

Select the arrow down to select the most appropriate icon for an arrangement (most are set automatically by default – See [Access Arrangements Icon Key \(Default Allocation\)](#)).

How to Print the List

Select the Print option at the bottom of the settings screen, to print a printable version of the list.

Candidates that require Modified Paper, Laptop or Computer Reader

Within each element it is possible to record if a modified paper is required and then if the paper has been ordered from the JCQ portal.

Cand No	Cand Name	Code	Name	Component	Access Arrangements	Date	Duration	Extra Time	Modified Paper	Laptop
0001	Tamwar Abdullah	BIO	Biology	BIO1 Biology 1	Reader Laptop	05/11/2024 09:00	60m			✓
0001	Tamwar Abdullah	COM	Computer Science	COM1 Computer Science 1	Reader Laptop	05/11/2024 13:30	60m		✗	✓

All – This will display all the candidates with Access Arrangements in that season, it will display the component code and the arrangements that they have.

Modified Paper – This will display the candidates that require a modified paper for a specific component (Unless the Subject has been excluded from requiring this arrangement in Manage Access Arrangements). Only component information will be displayed in this tab, the element information will not display. You are able to select Not Required, Modified Paper Required, Modified Paper Ordered and Modified Paper N/A.

Note – Only Candidates that have **Modified Paper Ordered** will have the appropriate icon displayed in the seating plans, attendance register and candidate's cards.

Laptop – This will display the candidates that have been identified in the AA settings as requiring the use of a laptop in an exam room (Unless the Subject has been excluded from requiring this arrangement in Manage Access Arrangements).

Note – Only Candidates that have **Laptop required** will have the appropriate icon displayed in the seating plans, attendance register and candidate's cards.

However, there is an option in Exams Assist Configuration to bypass this option, that when selected all candidates that are entitled to a laptop will be assigned the icon. There is no need to go through the above process.

Computer Reader – This will display the candidates that have been identified in the AA settings as requiring the use of a computer reader in an exam room. (Unless the Subject has been excluded from requiring this arrangement in Manage Access Arrangements)

Note – Only Candidates that have **Computer Reader Required** will have the appropriate icon displayed in the seating plans, attendance register and candidate's cards.

Staff Required – This will display the candidates that have been identified in the AA settings as requiring a member of staff in the room i.e. a reader or a scribe.

Note – Only Candidates that have a Staff required will have the appropriate icon displayed on the seating plans, attendance register and candidate's cards. If a candidate is entitled to a Reader and a Scribe and both of these arrangements are assigned to staff required in the settings, if staff required is selected then the reader and scribe icon will be displayed.

Extra Time – This will display the Extra Time that each candidate is entitled to in each exam. This can be manually amended per exam in this tab.

Note – By default these % are automatically calculated by the arrangement i.e. If a candidates has 25% Extra Time then they will get that %, if a candidate’s provision states Extra Time then the candidate again will receive 25% Extra time in each Exam.

Extra Time Settings

To add additional Extra Time into EA the drop down menu, navigate to **Overview | Configure Exams Assist** and add the required %’s required.

CSV of Extra Time % in dropdown
10, 25, 50, 75, 100

Extra Time Other Setting

When selecting the appropriate Extra Time % for a component, if the required % is not available, schools cannot select the **Other** option and the school can either enter the exact Extra Time % or alternatively they are able to enter the actual Extra Time for the exam.

Extra Time Chris Aaron for ENG1 English 1

Exam Duration 105 Minutes

Extra Time %
28

Duration With Extra Time Minutes
135

Save

IMPORTANT – If a candidate has been identified as not requiring any of the above arrangements for a specific **Subject** then that exam will not appear in the list for you to select **Yes** or **No**.

Example – If a candidate is entitled to a Reader, however they are not entitled to this for English Language, due to the nature of the paper.

Access Arrangements

Reader

Starting 23/12/2024

End 30/11/2025

Type Long-term

Subjects Not Selected Subjects

English

Any exam that has the subject **English** assigned to it, either in the Exams Entries Tab or Timetable and Seating (for internal) then their name will not appear in the Staff required list and the icon will also be greyed out when viewing the ALL tab.

Show 25 entries Search: george

Cand No	Cand Name	Code	Name	Component	Access Arrangements	Date	Duration	Extra Time	Modified Paper	Laptop	Computer Reader	Staff Required
5001	George Adams	ENG	English	ENG1 English 1	 Extra Time	01/12/2024 10:30 AM	105m	Y				

Tip - Spending time going through the AA and excluding candidates from subject they are not entitled to have an arrangement for could save time during an exam season.

Access Arrangements Icon Key (Default Allocation)

For the icons to appear in the access arrangements section the arrangements in the MIS need to be identified as:

Reader		Scribe		Practical Assistant	
Supervised Rest Breaks		Signer		Computer Reader	
Prompter		Note		Medical	
ARA		Dictionary		Separate Room	
Reading Pen		Extra Time		Mobile Device for Medical Reasons	
Green Paper		Blue Paper		Purple Paper	
Green Overlay		Blue Overlay		Purple Overlay	
Yellow Paper		Grey Paper		Pink Paper	
Yellow Overlay		Grey Overlay		Pink Overlay	
Red Paper		Orange Paper		Coloured Paper	
Red Overlay		Orange Overlay		Coloured Overlay	

Visit <https://schoolworkspace.co.uk/Help/ExamsAccessArrangements> to find a downloadable printable version of the above table.

NOTE - The above are mapped on the above names (Overlays will work in the same method as above), it's therefore **IMPORTANT** that you use these descriptions in Exams Organiser if you want the icons to display correctly. The modified paper, laptop and computer reader icons are only displayed if these have been selected for a candidate from the Access Arrangement Tab.

Modified Language Paper		Laptop		Computer Reader	
--------------------------------	---	---------------	---	------------------------	---

Managing the Invigilators

Allocating Staff/Invigilators to the Scheduler

If a school doesn't record their invigilators' details in the school MIS (SIMS/Arbor/Bromcom etc.), then they will need to be added into SchoolWorkSpace manually so they can be assigned to rooms in Exams Assist.

Navigate to **Invigilator Tab | Add New Invigilator**

Enter the **Invigilator Name** and **Email Address**.

A screenshot of a 'New Invigilator' form. The form has a title bar with 'New Invigilator' and a close button 'x'. It contains two input fields: 'Name' with the value 'Joe Bloggs' and 'Email' with the value 'jbloggs@hotmail.com'. A blue 'Save' button is located at the bottom right of the form.

Once the member of staff is created the invigilator popup box will appear.

A screenshot of a 'New Invigilator' form with multiple tabs: 'Details', 'Availability', 'Training', and 'Schedule'. The 'Details' tab is active. It shows an 'Email' section with a radio button selected for 'jbloggs@hotmail.com' and another option 'Other Email - Please specify'. Below that is a 'Mobile' section with a text input field. A note states 'Email and Mobile for the staff are copied from the staff details'. There is a 'Note' text input field containing 'note'. An 'Invigilator Type' dropdown menu is set to 'Invigilator'. An 'Assign To Room' dropdown menu is set to '- none -'. At the bottom, there is a checkbox for 'Auto Schedule To Selected Room' which is currently unchecked.

Tab 1 - Details

Invigilator Type – Assign the invigilator/staff as a Lead Invigilator, Invigilator, Staff, Roaming Invigilator or SLT. These different types will give the invigilator/staff different access in the magic link to what they are able to view/do when managing an exam room.

Invigilator Type

Invigilator/SLT/Lead Invigilator/Staff - They will have the ability to view the exam room that they are invigilating. They have the ability to start and end the exam, complete the attendance register and add any required actions such as SRB, Toilet Breaks etc.

Exams Officer – When assigned as an Exams Officer in the security group you will automatically be assigned as a roaming invigilator for all season. The Exams Officer will have all functionality as a roaming invigilator, but an Exams Officer will also be able to assign a malpractice and special circumstances and move candidates from one room to another.

Roaming – The roaming invigilator has the ability to view all exam rooms and all days within the season they have been allocated too. They will be able to select a room and then have the same functionality as an invigilator. The roaming invigilator has the ability to 'check-in' to a room to indicate that they have checked on a room to make sure everything is going ok.

IT Support – This type has the same functionality as the roaming invigilator but the only rooms that will be displayed for them are the rooms that contain ICT equipment. Any rooms that have a candidate using a laptop or computer reader these will be listed for them, so they know which room they need to check-up on during the day of the exams.

Assign to Room

By assigning a member of staff to an exam room, this will speed up the scheduling process as every time a member of staff or invigilator is available and there is an exam in that room they will be auto-scheduled in there. Once assigned to a room select the **Auto Schedule to Selected Room** and the **Save**.

Tab 2 – Availability

These are the dates that the invigilators have said they are available during the exam season. It is also possible to set an Invigilator/Staff as always available to be used in the scheduler.

Tab 3 – Training

In order to help EOs with managing training records for invigilators/staff it's possible to record this information on Exams Assist. Select the appropriate type of training they have received and the date they carried out of the training.

Note - Only when a member of staff/invigilator has been trained that they can be assign that role within the exam room. The Trained Types that appear here are the ones that have been selected as Staff required in the Access Arrangements Settings.

Tab 4 - Schedule

This will show the room allocations of the invigilator/staff. It will also display the attendance of the invigilator/staff too.

Invigilator Settings

To edit the settings, navigate to **Invigilator Tab | Edit Season | Invigilators**.

There are two ways in which Invigilators availability can be collected the first is by using the dates used when seating the candidate. If, however, you've yet to seat the candidates it's possible to collect availability by specifying the dates. The dates selected will be dates that will display in the availability email.

Invigilator Availability Dates

Use the exam timetable definition to determine the Dates
 Specify the Exam Dates For Invigilator Availability Request

November 2022						
M	T	W	T	F	S	S
	1	2	3	4	5	6
7	8	9	10	11	12	13
14	15	16	17	18	19	20
21	22	23	24	25	26	27
28	29	30				

Once the invites have gone out to the invigilators asking for their availability, it is possible to set the date that these are editable. Once the date has past the invigilators will no longer be able to amend their availability, but they will be able to view their bookings as the EO assigns them to a room.

Note – If an invigilator has been assigned to a room, they are no longer able to amend their ability for that day. They would need to contact the school for this to be amended.

Invigilator Booking Open From:

Invigilator Bookings Close:

It is also possible to add a note and attachments to the invite that goes out to the invigilator. The note at the top could give them basic instructions of how to make their bookings and EOs could also attached the ICE booklet for the invigilators to read.

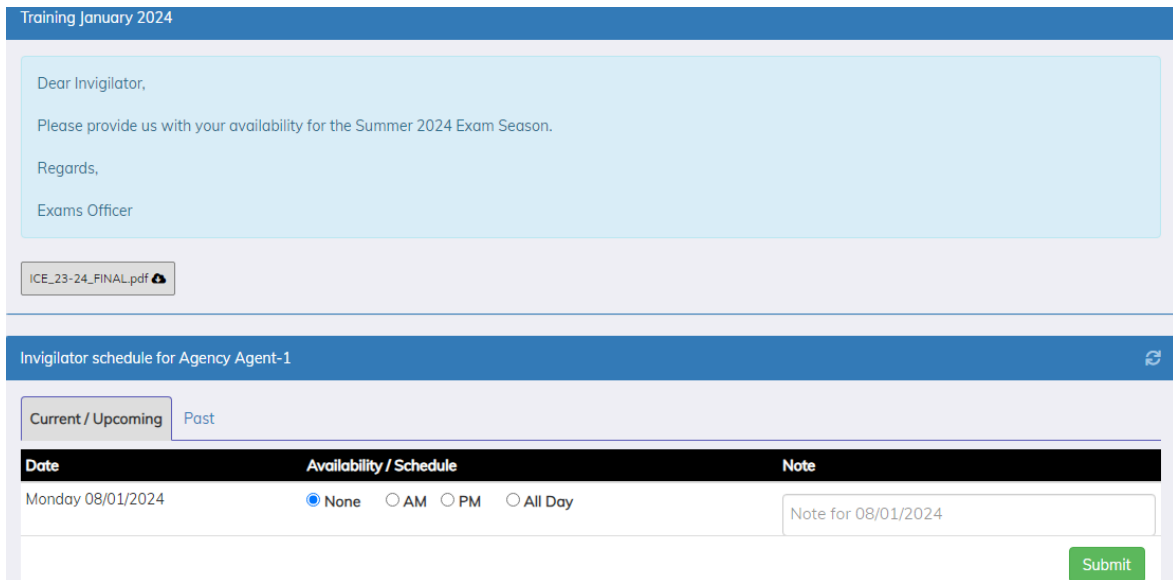

Invigilator Note

Summer Exams Season 2022
 Please find below the dates for the forthcoming examinations, could you provide us with the dates that you are available to Invigilate this season.

Add Attachments

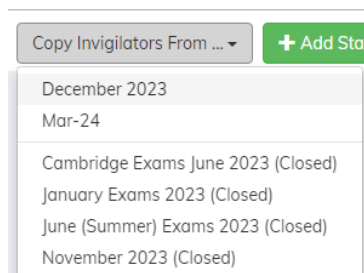

No file chosen

Here is a screenshot of what the invite to the invigilators looks like.

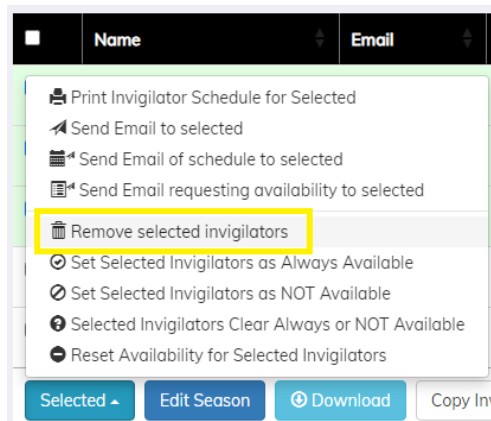

Copying Invigilators from a different Season

To assist Exams Officers, it's possible to copy the allocated invigilators from one season to another. Navigate to the current exam season, then the Invigilators Tab, select Copy Invigilators From and select the season you'd like to copy from.

Tip – Copy from a large exams season and then remove any invigilators/staff that are no longer required. Select the invigilators/staff required to be removed and remove selected invigilator.

Sending Messages to Invigilators

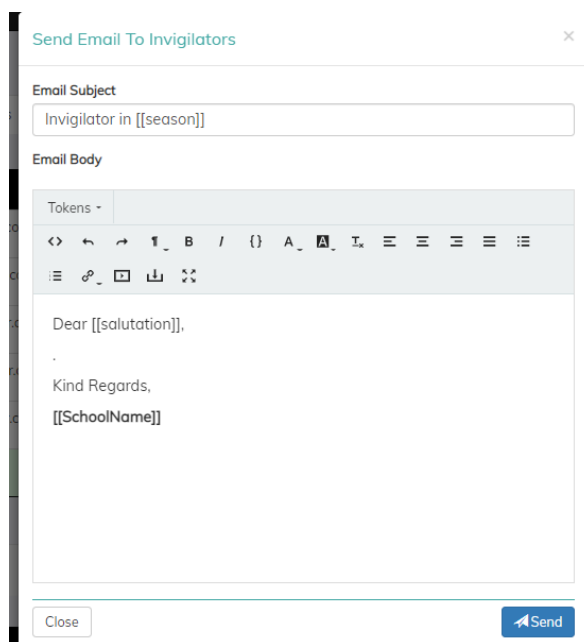

There are different messages possible to send to the invigilators; 1. Email to Select; 2. Email of Schedule to Selected and 3. Email requesting availability.

Email Selected

To send out messages to the invigilators or staff, select the individuals that needs to receive the message the **Selected | Send Email to Selected.**

When composing the message to be sent out it's possible to include **Mail Merging** tags from the **Tokens** Menu. The link to view the booking form is always included at the bottom of the message.

The same process applies to each of the other two options.

Recording Invigilator Training

The types of training records that are available to record a training against are the ones that have been identified as **Staff required** in the Access Arrangements Settings. Navigate to the **Access Arrangement Tab | Actions | Access Arrangement Settings** and select the Access Arrangements that the invigilators/staff need to be trained in to undertake that role.

Access Arrangements

Arrangement	Count	Staff Required
Reader	29	<input checked="" type="checkbox"/>
Scribe	10	<input checked="" type="checkbox"/>

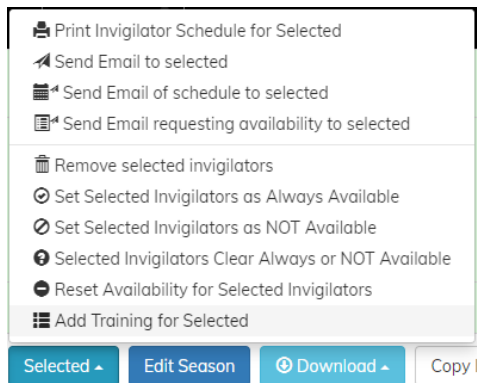

Details Availability Training Schedule

Area	Trained
Invigilator	<input checked="" type="checkbox"/> 01/09/2023 <input type="text"/>
Safeguarding	<input type="checkbox"/> dd/mm/yyyy <input type="text"/>
Reader	<input checked="" type="checkbox"/> 01/09/2023 <input type="text"/>
Scribe	<input checked="" type="checkbox"/> 01/09/2023 <input type="text"/>

It is also possible to update the training records for a staff member from their homepage, this is a great function if a member of staff has been training but isn't assigned to a season.

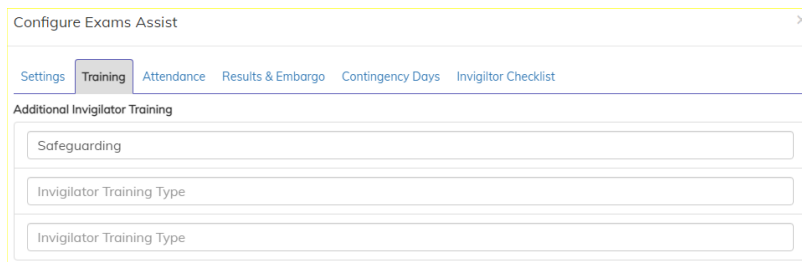

Search for the member of staff in the global search at the top of the page and then select the member of staff. Once select, navigate to **Actions | Training**, and update their details as required.

To record training for more than one staff members, navigate to the Invigilators Tab and select the staff members that require their records updated. Once selected, navigate to **Selected | Add Training for Selected**.

Adding Training Types

If school specific training records are required to be recorded, then these can be added manually. Navigate to **Overview Tab | Configure Exams Assist | Training**. Add the additional invigilator training record needs in this popup box.

Once all the training options have been added, select each invigilator/staff member in turn and navigate to the Training Tab and enter the training and the date each invigilator/staff member received it.

Identifying Lapsed Training Records

In the list of invigilators table, the training records for each invigilator/staff member is identified in the trained column. Any which are coloured **Green** are current and any which are in **Red** have lapsed and need renewing.

Overview Access Arrangements Invigilators Timetable & Seating Candidates Rooms Schedule Daily Planner				
Details W/C 05/02/2024 W/C 12/02/2024 All Dates

<input type="checkbox"/> Mrs Anita Abell	Abell.3284096@mailinator.com	Roaming	Invigilator Reader	Full Invigilator Training Safeguarding

Removing Selected Invigilator

Select the invigilators/staff that need to be removed from the table and then navigate to **Selected | Remove Selected Invigilators**.

Note – If an invigilator has been scheduled to a room a warning will appear to notify the user of this when trying to remove the invigilator(s).

Resetting Global Settings

Set Selected Invigilators as Always Available – This will change the status of the selected group of invigilators/staff from needing to provide their availability to being always available for the Exam Officers to schedule.

Set Selected Invigilators as NOT available – If you have been made aware of a member of staff or invigilator that will not be available that season, then select the invigilator and select this option. This is a great tool to remember that they have been invited to invigilate this season but are unable to.

Selected Invigilators clear Always or Not Available – This will clear both of the above setting for the selected invigilators.

Reset Availability for Selected Invigilators – If you get informed by an invigilator that they have provided the wrong information or need to change their availability. Select the invigilator and select this option and this will reset all their availability for that season back to **none**.

Note – These settings will carry over from one season to the next, hence the need for the above quick tools.

Agency Staff

It is possible to add to agency staff to the exams season, therefore if you don't have enough staff then these could be allocated in the scheduler. In **Overview | Edit Season** enter the amount of Agency Staff that you think you will require, when these are added they will be allocated as an Agency Staff and marked as **Always Available** to be used when scheduling.

Invigilators Availability Tab

As the invigilators complete their forms and submit, this information will be displayed in a week commencing (w/c) tab to assist EO with scheduling. It is also possible to download the invigilators available by navigating to the **All Dates | Download**.

Global Invigilators Costs

To work out the rough cost of the invigilators for the school for a season, navigate to the **Overview Tab | Configure Exams Assist**. On the setting tab enter the cost of both the Lead Invigilator and Invigilator in the **Invigilator Hourly Rate**.

Invigilator Timings (For Overview Tab) :

Number of minutes to arrive before the exam 45	Number of minutes to stay after the exam 45
Minimum session duration (minutes) 180	
Invigilator Hourly Rate 12.65	Lead Invigilator Hourly Rate 15.36

IMPORTANT – This is a rough cost and doesn't distinguish between any of the Invigilators Type i.e. if a teacher, who is assigned as a staff member is invigilating an exam, then if they are scheduled to a room then they will add to the cost at the above set cost.

Individual Invigilators Cost

To work out a more accurate cost for invigilators in a season, record an hourly rate per staff member instead of globally. Navigate to the Invigilators Tab, Select a Staff Member and enter the hourly rate for that member of staff.

Hourly Rate
12.39

Close Staff Details Save

Managing the Timetable / Seating

Allocating candidates to rooms and a seat is a very quick and simple process, there are a number of steps that you are required to follow, and these are outlined below. The data required to populate the timetable is contained in the Statement of Entries import file (for an External Season), therefore it is essential that you include the Component Details when exporting this file from SIMS. The component details contain the date and the session for each exam a candidate is sitting.

IMPORTANT Note – Ensure that when you create the entries file that you select **Fee Information – All** and **Include Component Information** as this is required for creating the timetable tab.

The screenshot shows a settings panel with the following elements:

- Radio buttons for 'Fee Information': 'None' (selected), 'Private Fees', and 'All'.
- A 'Save as Default' checkbox.
- A 'Report Footer' text area.
- A checked checkbox for 'Include Component Information'.
- An unchecked checkbox for 'Print on Headed Stationery'.

To complete the seating allocation, you will need to follow these steps in the following order:

How to switch to creating Seating in Exams Assist

To create the seating plans in Exams Assist you will need to navigate to **Overview | Edit Season** and select **Candidate Seating – Room, Seat and Timetable allocation done in Exams Assist**.

Candidate Seating - Room, Seat and Timetable allocation done in Exams Assist
 Feature in development - Check the box to disable Exam Timetable import from SIMS and enable in SchoolWorkSpace

Setting the Session Start Times

When the statement of entries is imported the start times allocated to an exam comes from the session information – AM, Mid-Morning or PM. Therefore, these starting times needs to be identified in Exams Assist. Navigate to **Overview | Edit Season | Invigilator** and then confirm these times. It is therefore possible to change these times centrally per season, so if the start times are different in an Internal/Mock season, then these can be amended here.

The screenshot shows three time selection boxes:

- AM Start**: 09:00
- Mid Morning**: 10:30
- PM Start**: 13:30

Note - The default times in Exams Assist will be the official starting time stated by the examination board.

Managing the Extra Time Candidates

Once the school has opted to create seating plans in Exams Assist an additional sub tab will appear in **Access Arrangement tab** called **Extra Time**.

In order to reduce setup, exams assist will automatically map an Access Arrangement called – **Extra Time** as having a default value of **25%**. If, however, a school records a % amount with the arrangement then this percentage will be added to the duration of the exam.

Examples:

If a candidate has an arrangement called Extra Time, they will have the default value of 25%. If a candidate has an arrangement called 10% Extra Time, then they will automatically have 10% added to the length of each scheduled exam. If a candidate has 100% Extra Time, then they will automatically have 100% added to each scheduled exam.

Cand No	Cand Name	Code	Name	Component	Access Arrangements	Date	Duration	Extra Time	New Duration
x7035	Sawyer Ross	1100U8	History Nazi Germany 1933-45	1100U80-1 History Unit 4 Option 8: Written	Supervised Rest Break Prompter 25% extra time Separate Room	09 Jun 2023 1:00 PM	105m	25%	131m
x7035	Sawyer Ross	1100UF	History Parliamentary REFRM1780-	1100UF0-1 History Unit 3 Option 6: Written	Supervised Rest Break Prompter 25% extra time Separate Room	24 May 2023 9:00 AM	105m	100%	210m
x9431	Mike Harrison	1200U3	Sociology Power and Control	1200U30-1 Sociology Unit 3: Written	25% extra time Modified Language Paper	22 May 2023 9:00 AM	120m	10%	132m

Note – To add additional Extra Time %, navigate to [Extra Time Settings](#).

Editing/Removing Extra Time

If a candidate is allowed a different % of ET to the default exams assist assigns of 25% then this can be edited within the **Access Arrangement | Extra Time** Tab. If a candidate isn't entitled for extra time for all exams, it's possible to search for the candidate and then change the extra time % to zero, this will then change the new duration to be the same as the duration of the exam.

Extra Time – Other – To set either a specific **Time** or **% of Extra Time**, this can be done by selecting **Other**, this is a great function if the time works out to be a strange time, then it's possible to amend.

Populating the Timetable Tab

Once the above steps have been completed – **Import Statement Of Entry and Access Arrangement File (If Applicable), confirm start times and confirming the candidates with extra time**, when importing the Statement Of Entry file and component information is included the build timetable popup will automatically appear (this will appear every time a new upload is done).

⚡ Build Exam Timetable and Seating from Exam Entries

Once selected this will create a new tab called **Timetable / seating** within this tab you will see a list of the timetabled exams in date and time order. This tab will also display if any exams contain a clash, the room that the exam has been allocated too and the number of candidates entered for the exam.

Date	Time	Duration	Clash	Subject	Room	Board	Element	Component	Candidates	Seated
02/05/2023	09:00	3h 0m				EDEXL/KSQ	31555H	31555H01	1	
03/05/2023	09:00	1h 30m - 3h 0m		Law		EDEXL/KSQ	20168K	20168K01	15	
04/05/2023	09:00	2h 30m - 3h 7m	🚩			EDEXL/KSQ	31525H	31525H01	15	

Resolving Clashes

After populating the timetable, you will be able to filter and see any exams that contain Clashes, these will be identified with a **Red Flag**. Each of these clashes need to be resolved by allocating a new **Start Time and Date** to a candidate or a group of candidates that have an exam at the same time.

Clash Examples

a) Language Exams – Listening and Writing

To resolve a clash for an exam such as French, German or Spanish that have a listening and reading where the start times for both exams are in the session. This clash will need to be resolved by moving **all candidates** to a new later time.

Date	Time	Duration	Clash	Subject	Room	Board	Element	Component	Candidates	Seated
23/05/2023	13:30	0h 45m - 0h 56m	🚩	French		WJEC/GCSE	3800UB	3800UB0-1	9	
23/05/2023	13:30	1h 15m - 1h 33m	🚩	French		WJEC/GCSE	3800UC	3800UC0-1	9	

Step 1 - Select the edit button on the exam that the **start time needs to be amended**, in the above example it will be the component code for French Reading, once selected the following popup box will appear.

Candidates : 3800UC0-1 in at 23/05/2023 13:30

Candidates 9 Clash Candidates 9 Actions

Showing all exams on 23/05/2023 for clash candidates

- x1028 : Abigail Cooper

 - 13:30 - 14:26 3800UB0-1 : French Unit 2 Higher: Listening **0h 56m**
 - 13:30 - 15:03 3800UC0-1 : French Unit 3 Higher: Reading **1h 33m****
 - o 25% extra time
- x1021 : Antony Wilson
 - 09:00 - 10:45 3300U50-1 : Maths UNIT1 Higher Noncalculator **1h 45m**
 - 13:30 - 14:15 3800UB0-1 : French Unit 2 Higher: Listening **0h 45m**
 - 13:30 - 14:45 3800UC0-1 : French Unit 3 Higher: Reading **1h 15m****
 - o Medical

IMPORTANT – The subject in yellow is always the component that will be amended. If the incorrect component is selected, simply press the other component in the popup box that has a clash and then you will be able to change that start time.

Note - To assist schools with resolving these clashes key information is displayed in the popup box. If any of the candidates has extra time and what exam they have in the earlier and later session. This information will assist you in deciding how best to resolve the clash.

Step 2 – All candidates will need a new start time (so no need to select any candidates), navigate to the **Actions Tab**, change the starting time for this exam and apply this to **All Clash Candidates**.

Once this clash has been resolved you will notice that these two exams will now disappear from the **Clash only** as the clashes has been resolved. As this clash has now been resolved a new **Line** will be created in the timetable / seating tab to indicate a new Exam has been created and is then ready to be roomed.

23/05/2023	13:30	0h 45m - 0h 56m	French	WJEC/GCSE 3800UB	3800UB0-1	9	
23/05/2023	14:30	1h 15m - 1h 33m	French	WJEC/GCSE 3800UC	3800UC0-1	9	

b) Few clash candidates within a component

Step 1 - To resolve a clash with candidates having two different exams in the session is the same process. Select the component whose start time you want to change, and this component will be highlighted in Yellow in the popup box (you will be able to see details of the exam prior and after the session).

Step 2 - Navigate to the actions tab and change the start time of the chemistry exam to your new desired starting time and select **Set Start Date Time**.

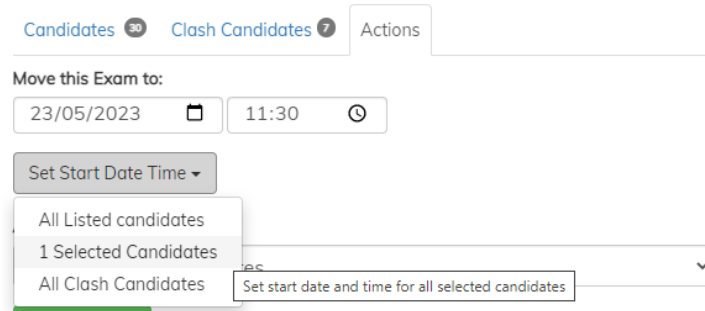

A Complex Clash

To resolve a complex clash where a candidate has two exams in the morning and one in the afternoon, follow the following steps. With this example two of the exams will require a new start time as the clash exam will go into the afternoon exam, creating a new clash.

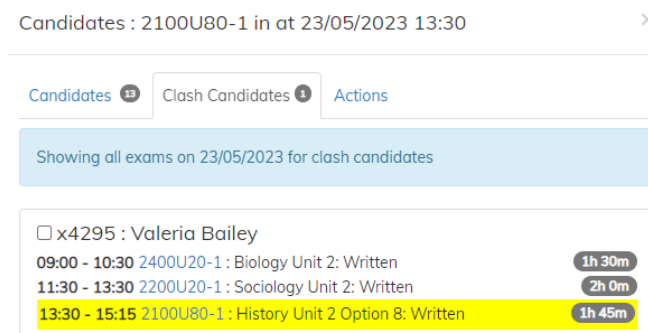

Step 1 - Decide which exam will be done second, in this case the candidate will sit Sociology at 9:00, Biology at 11:30 (to allow a break) and finally the History at 14:00 (to allow a break).

Step 2 - Click on the Biology component code to change to that exam, the subject highlighted will then be Biology. Select the candidate Valeria Bailey and then navigate to Actions and change the start time to 11:30 and set for 1 Selected Candidates.

Once submitted this will resolve this clash but a new clash will be created as the second exam will now go into the third exam (as seen below).

Step 3 - Select the newly created clash so that the start time of this new clash can be resolved. Select the candidate and navigate to the actions tab and change the start time to 14:00 then all clashes for this candidate will be resolved.

How to amend a start time due to Access Arrangements

If a candidate has an afternoon exam and also has a high percentage of Extra Time and Supervised Rest Breaks, it's possible to amend their start time (if this has been approved by JCQ) from 13:30 to 9:00. Select the candidate and then navigate to the action tab and then enter a new start time for this candidate and apply this to the 1 selected candidate.

Candidates : 1100U80-1 in at 09/06/2023 13:30

Candidates 13

Clash indicators:

Yellow Flag – A yellow flag indicates that a candidate has a clash during that day and this flag will indicate that this is the exam that is being sat at the same time as assigned by the exam board. This flag will appear in the attendance register, seating plan and the daily planner to help schools keep track of the clash candidates.

Red Flag – A red flag indicates that this is a clash candidate, and this exam is being sat at a different time to the one set by the exam board. A red flag will also appear for any candidates sitting any exam for which the start time has been changed.

	CandNo	Name	Reg	Room/Seat	Extra Time	AA	Exams
<input type="checkbox"/>	x1021	Antony Wilson	ExtCand		N	1	<div style="display: flex; flex-wrap: wrap; gap: 5px;"> <div style="border: 1px solid #ccc; padding: 2px;">3020U30-1</div> <div style="border: 1px solid #ccc; padding: 2px;">3120UB0-1</div> <div style="border: 1px solid #ccc; padding: 2px;">3430UD0-1</div> <div style="border: 1px solid #ccc; padding: 2px;">3100UB0-1</div> <div style="border: 1px solid #ccc; padding: 2px;">3310U50-1</div> <div style="border: 1px solid #ccc; padding: 2px;">3430UE0-1</div> <div style="border: 1px solid #ccc; padding: 2px;">3300U50-1</div> <div style="border: 1px solid #ccc; padding: 2px; background-color: #ffc107;">3800UB0-1</div> <div style="border: 1px solid #ccc; padding: 2px; background-color: #dc3545;">3800UC0-1</div> <div style="border: 1px solid #ccc; padding: 2px;">3430UF0-1</div> <div style="border: 1px solid #ccc; padding: 2px;">3700U20-1</div> <div style="border: 1px solid #ccc; padding: 2px;">3800UD0-1</div> <div style="border: 1px solid #ccc; padding: 2px;">3310U60-1</div> <div style="border: 1px solid #ccc; padding: 2px;">3020U40-1</div> <div style="border: 1px solid #ccc; padding: 2px;">3700U30-1</div> <div style="border: 1px solid #ccc; padding: 2px;">3300U60-1</div> <div style="border: 1px solid #ccc; padding: 2px;">3100UK0-1</div> </div>

Setting up the Rooms to use when Timetabling/Seating

Adding/Editing a Room

To ensure that candidates are seated correctly when auto scheduling you will need to ensure that each room setup has been setup correctly. Navigate to the **Rooms Tab** and select **Add Room** or select a room within the tab and following dialog box will appear.

Room: New Gymnasium

Display Name
The Gym

Description

Display Row 1 at the bottom Display Column A on the right
Row 1 is at the top if not selected Column A is on the left if not selected

Orientation Label
test label

Number of Columns: 10 Number of Rows: 17

> Seating Plan Print Options

∨ Seat Allocation Order

Snake Seat Allocation

Existing Room – It is possible to select an existing room imported from the MIS and use this in Exams Assist for seating.

Display Name – This will be the name that will appear for the invigilator on their seating plan or attendance register. This will help schools to be able to rename rooms to a more identifiable name that the invigilator may understand, the name will display as it appears in the MIS in the timetable and schedule tab but the new name for the invigilators.

Display Row 1 at the bottom – By selecting this option, row A1 will appear in the bottom left-hand corner rather than at the top left.

Display column A on the right – By selecting this option this will display the A column on the right side. If the above option is selected A1 will be bottom right and if the above isn't selected A1 will be top right.

Flip Axis to display Columns A-Z Down and Rows across – By selecting this option, the seating layout will be flipped i.e. the columns (A-Z) will no longer be displayed across the top/bottom but will now be displayed on the side (up/down) and the rows (1-99) will be displayed across the top/bottom.

Orientation Label – Give the bottom of the seating plan a label so the candidates/invigilators can identify where these desks are located in the room.

Room Dimension – Enter the number of columns and rows in a room.

Snaking or non-snaking – Identify how you'd like the candidates to be snaked with A1 being the Green Square. It is also possible not to have the candidates snaked, select the best option that suits the school.

Laptop Seats Deactivated Seats

More Settings

This room in not used in Exams – If this room is not required to be displayed in the list of rooms available to be assigned to an exam in the timetable tab, then this can be selected, and this room will no longer display. It's also possible to **delete** a room permanently from Exams Assist if no longer required, this option is available from the bottom of the pop up box.

Often used Room – If a room is used regularly in an exam season i.e. a Main Hall, selecting this tick box will ensure the room is displayed toward the top of the list and not in alphabetical order.

Auto Allocation – If there is a room that you don't want the candidates to be auto allocated will need to be deselected.

Auto allocating settings – There are two available options to select for the room when it comes to auto seating – add a gap between different exams in the room; and if the room isn't full not to seat the candidates towards the end and keep the candidates towards the middle of the room.

Auto allocate - Reserved seats
A1-A8,B1-B8

If there is capacity in the room do not use these seats when auto allocating. e.g. A1-B9,E9

Auto Allocate – Reserved Seats - The above functionality is great for when there is a small exam in a large room. Enter the rows/columns (Letter and Number) that you don't wish pupils to be sat if a small number is allocated to a room. When the auto allocation is selected the candidates will not be seated in this area if there is enough room in the room.

Note – If Room Bookings Module is activated it's possible to view the forthcoming bookings for the room in the room settings.

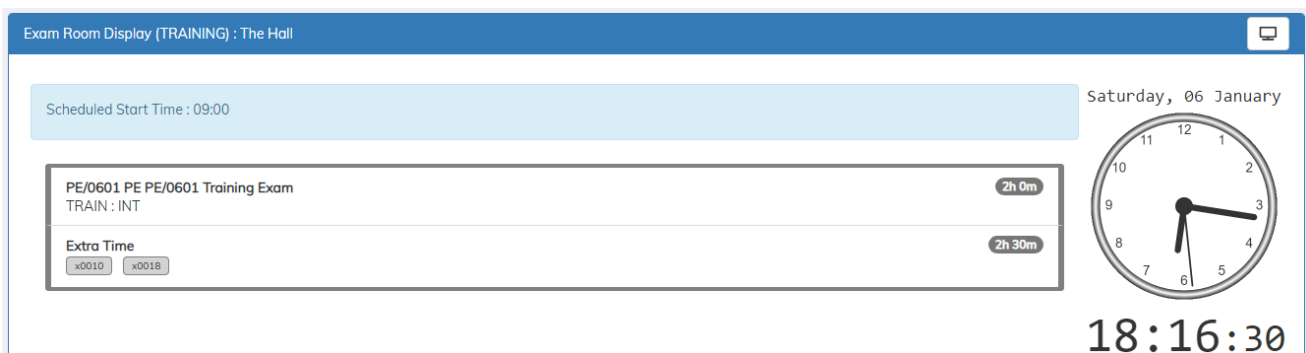

Hide deactivated rows and columns – This will enable that deactivated Rows or Columns will not be displayed when looking at the seating plan from the Timetable and Seating Tab. Also, the deactivated row/column will not show when printing the seating plans.

Exam Room Display

Each room has its own Exam Room Viewer that can be displayed in an exam room. The purpose of this link is so that schools can save this on the desktop of the device in the exam room. With this link there is no requirement for the users to be logged into Exams Assist for this to be displayed, it's just a magic link for that specific exam room.

Note - This link contains no candidate information, it will only display the clock and the information regarding the exam. It is also possible for the invigilator to scroll forward to the next exam within that room.

Once the exam has started the details on the display will be updated to display the end times.

Note – This room viewer supports exams with different start times (this view is not possible from the roaming invigilators link).

Allocating Candidates to Rooms/Seats

It is possible to assign a candidate to a room and/or a seat within a room. This is a great function for schools that assign their candidates to the same room and seat for all their exams. It's also a great function for assigning candidates that are entitled to a reader, scribe or smaller rooms to that room so they can automatically be assigned.

To assign a candidate to a room navigate to the candidate tab and search for the candidate you need to assign to a room. When a candidate is selected, select Assign Candidate to a Room, locate the room and then assign to a seat (if required). Once you submit this request the candidate will be auto roomed and seated for all their exams.

IMPORTANT – Ensure that all clashes have been resolved otherwise the candidate will be assigned to a room for both of the clash exam as they both have the same starting time.

Tip – To assign all candidates that require a room as they are entitled to a scribe, search Scribe in the search box and all candidates entitled to a scribe will be filtered out. Assign each of them in turn to a room and a seat.

Note – The allocation of a room and a seat is stored against the candidate therefore these settings will carry over into future seasons. However, there is the ability to set the room and seat only for current season, so the settings do not carry forward.

Assign to Room :

Set room and seat only for the current exam season

1. Running the Seating Allocation

Once the above tasks have been completed you will be able to allocate the candidate to rooms/seats. Navigate to **Overview | Build Exam Timetable and Seating from the Statement Of Entries** and select the Green Build Exam Timetable, this will now auto assign the candidates assigned to a room/seat from the candidates tab (all other candidates will be not be assigned to room).

Show entries Search:

<input type="checkbox"/>	Date	Time	Duration	Clash	Subject	Room	Level	Board	Element	Component	Candidates	Seated
<input type="checkbox"/>	Sun 12/01/2025	09:00	1h 45m		Chemistry	Sports Hall 1 [Sports Hall]	GCSE/B	WJEC/GCSE	3410U2	3410U20-1	11	100 %
<input type="checkbox"/>	Sun 12/01/2025	09:00	1h 56m		Chemistry	Art Room 1 [Art Test] Ⓞ	GCSE/B	WJEC/GCSE	3410UB	3410UB0-1	1	100 %
<input type="checkbox"/>	Sun 12/01/2025	09:00	1h 45m		Chemistry	Boardroom	GCSE/B	WJEC/GCSE	3410UB	3410UB0-1	1	100 %
<input type="checkbox"/>	Sun 12/01/2025	09:00	1h 45m		Chemistry	Sports Hall 1 [Sports Hall]	GCSE/B	WJEC/GCSE	3410UB	3410UB0-1	25	100 %
<input type="checkbox"/>	Sun 12/01/2025	09:00	1h 15m		Chemistry		GCSE/B	WJEC/GCSE	3430UE	3430UE0-1	23	

The above illustration shows the breakdown of rooms for Chemistry. A number of candidates have already been assigned to a room from the candidates tab and there are 23 waiting to be roomed. From the scheduler it is possible to select the Room Name which will hyperlink to the attendance register and seating plan for that exam. The % of candidates seated will also be displayed, if the seating for that room is completed this will automatically highlighted green. If there any Extra Time candidates in the room this will also be indicated in the room column.

Allocating Multiple Examinations to an Exam Room

If a number of exams are required to be allocated to a single room, this can be done by selecting the exams that needs to be assigned to a room, navigate to **Selected | Assign Room to Selected Rows**.

Assign Room to Selected Rows

Assign Seats To Selected

From the drop down menu select the required room and then Submit, the selected exams will be assigned to that room.

Assign room to selected rows ×

Select the room to assign to the selected rows.

Room:

Sports Hall 1 [Sports Hall]
New Gymnasium [The Gym]

Allocating a Single Examinations to Rooms

There are two sub tabs for assigning rooms to an exam, this can either be done **By Date** or **By Exam**. The **By Date** tab will display a row for each component and room, where the By Exam are displays them as one

row per exam and displaying every room assigned to that exam. It's possible to room an exam from either tab.

By Date Tab

Once the above process has been completed you will be able to filter by date, this will allow you to methodically allocated rooms by each day or alternatively, you can filter to display all the un-roomed exams.

To assign a room to an exam, select the edit button you'll be able to assign a selection of candidates to a room or all candidates to a room, or all candidates to a selection of rooms (this is useful for large exams). When assigning an exam to a room it's possible to see a list of candidates in that room and also what Access Arrangements they have (therefore candidates can be split by room by looking at their Access Arrangements).

Candidates : 6300QCL-1 in Board Room at 09/05/2023 13:00

Candidates Actions

Move this Exam to:

09/05/2023 13:00

Set Start Date Time

Assign to Room:

All listed candidates

Select Room

Assembly Hall (101 Seats)

Board Room (20 Seats)

To assist in this process, it's possible to see the number of candidates left to room and also in the room list then number of available seats in the room. To assign a room to the exam select the edit button and navigate to the actions tab, select **Add Room** and choose the room you'll like to assign the exam too.

Allocating multi-rooms to an single exam

It's also possible to assign more than one room to an exam as schools may not have enough seats in one room so they will need to be split between a numbers of rooms. As well as being able to split the room allocation it's possible to identify the number of candidates to be assign to each.

Note – Once rooms are allocated to the exams, it will be possible to schedule staff/invigilator to the exam rooms.

Candidates : 3700U30-1 in at 12/06/2023 09:00

Candidates **161** Actions

Move this Exam to:

12/06/2023 09:00

Set Start Date Time

Assign to Room:

161 Unroomed candidates

Room	Capacity	Max Number of Candidates
Assembly Hall	101	101
Room4	40	40
Room2 : Art & Design	40	40
Total		181

+ Add Room

To assign multiple rooms just add your first room and you will be able to view the capacity of the room and then the number of candidates you'd like to assign to that room. Then add a new room but this time you will be able to split the number of candidates between each of the room so you can even out the numbers etc.

Once all the rooms have been assigned to exam in the timetable / seating tab, navigate to the **Overview | Build Exams Timetable and Seating from Exams Entries**. When running this routine ensure that you select **Assign Seats by Duration, Component then Candidate Number**. This routine will seat the candidates in the room based on a set of rules assigned from the Room Tab.

Use details in Exam Entries to build the Timetable and Seating

02/05/2023
23/06/2023

Seating Allocation Rules

Exams will be seating in according to duration. The longest exams will be seated closest to A1. The candidates within the longest exam will be seated, the Extra Time candidates first and then the candidates in order of their candidate number.

Amending Seating Allocations

Once the candidates have been allocated to a seat within the rooms it's possible to manually amend these if the auto allocation didn't quite meet your requirements. In the timetable/seating tab select the name of room you need to amendment, once selected you will be able to view the attendance register and seating plan for that room.

To amend a plan, select the Edit button at the bottom of the plan and you'll be able to drag and drop candidates around the grid. Any unseated candidates will be displayed in the unallocated column waiting for the EOs to assign them manually. Once a candidate has been manually moved, a **Pin** will be dropped on the candidate so when the automation routine is run the candidate will no longer be moved. To remove a candidate from the grid just select the **x** at the bottom of the box.

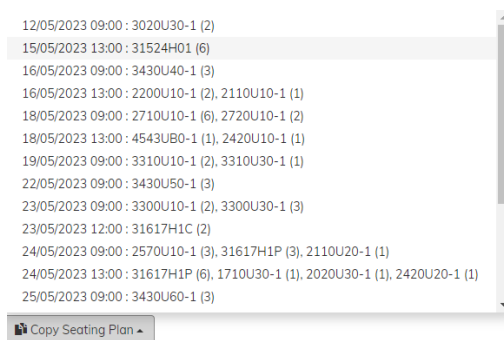

Once you are happy with the plan, and no further amendments are required, select the edit button in the timetable / seating tab and select the **Lock** check box in the actions tab.

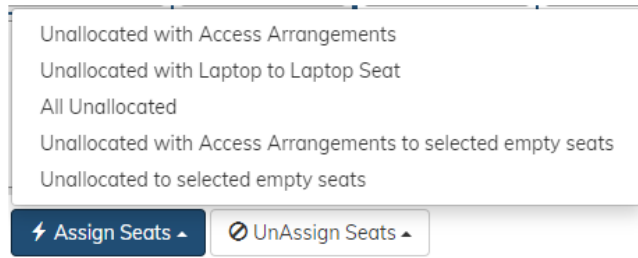

Copying a Seating Plan

It's possible to copy a plan when editing a seating plan. If there is an exam that has two or more units within that qualification you can manually create one seating plan, then go to the next date and select the previous exam to copy the plan from. If you use the auto assign seating function then all rooms will be seated the same, however, if you manually amend one then you will be able to into the next exam and copy the manually amended seating plan.

Manually Assigning Candidates to a Seat

There are a number of tools to assist you assigning candidates to the plan. To access these, edit the plan and navigate to the **Assign Seats** menu and select the appropriate function.

Allocating the Laptop Seats

When auto-assigning candidates to a room, if a candidate has requested a laptop, then they will be seated in a laptop seat. However, if this request has been made after the seating plans have been created and the candidate seat has been pinned, when selecting the allocate seating this candidate will not move to a laptop seat as they are pinned to the plan.

To assist Exams Officers to identify candidates who have requested laptop but not seating in a laptop seat we have added a red laptop icon on the timetable/seating tab to view these.

NOTE – If you search Laptop in the timetable/seating tab it will search for any of these errors.

Show	Date	Time	Duration	Clash	Subject	Room	Board	Element	Component	Candidates	Seated
25	13/05/2023	09:00	1h 30m - 1h 52m		Computer Science	New Gymnasium	AQA	8520	8520/1	49	36 %

When you select the room, you will see the candidates that have the laptop error will have a red border around the seat. Once the candidate has been moved to a seat which has a laptop on it the red border will be removed and so will the icon in the timetable/seating tab.

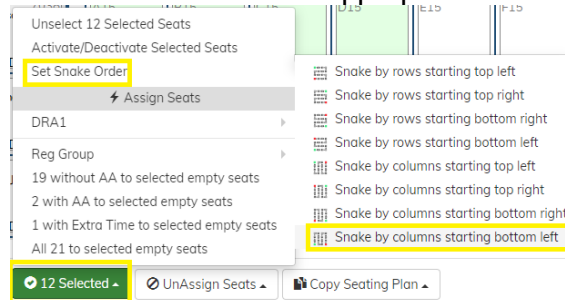

Multi-Selecting Seats

When seating candidates it's possible to multi-select a number of seats. To achieve this simply select the first seat i.e. **A1** once selected, double click on the diagonal seat – **M10** and all seats will be highlighted. Once this selection has been made the number of selected seats will appear on the bottom, also, more seats can also be selected or multi-selected until the correct number of required seats are selected, ready for the candidates to be seated.

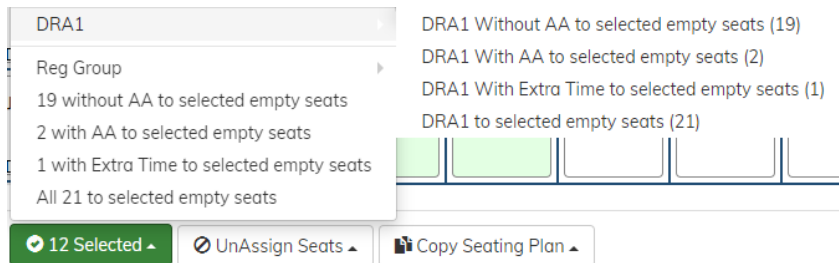

Resetting the Snaking Order

Once the selection has been made it's possible to allocate the candidates to their seats, however, the snake order may no longer be correct. It's therefore possible to set the snake order for this selected. Navigate to **Selected | Set Snake Order** and then select the most appropriate for the selection.

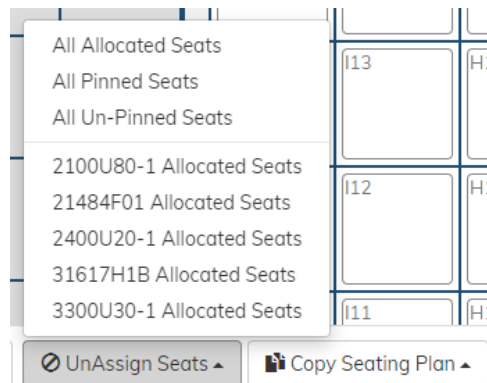

Once this has been set, select the candidates to be seated, using one variety of options available i.e. with Access Arrangements, without Access Arrangement, by Registration Groups etc.

Removing Candidates from a Seating Plan

To remove candidate(s) from the plan, edit the plan and navigate to the **Unassigned Seats** menu, if there are multiple exams in the room it's possible to remove each one at a time.

Resetting Timetable / Seating

If required, it is possible to reset a number of actions that have been done in relation to the timetable and seating. Navigate to the **Overview | Build Exam Timetable and Seating from the Exams Entries**. This will then give you possible options for resetting the timetable.

Build Exam Timetable from Entries

Reset exam rooms - clear any allocated rooms & seats
 Reset exam seats - clear any allocated seats (rooms left alone)
 Reset exam start times (if modified to resolve clashes)
 Also reset candidate clash flags

⚡ Build Exam Timetable and Seating from Exam Entries

Manually Adding Exams to an External Season

When an Entry file is imported into EA, these entries will be visible in the Entries Tab. The component information will also be shown (as seen below).

Board	Level	Code	Name	Components	Subject
WJEC/GCE	GCE/B	1100UN	History Historical Interpretations	1100UN0-1	History
WJEC/GCE	GCE/B	1110U5	Geography Independent Investigation	1110U50-1	Geography
WJEC/GCE	GCE/B	1570U4	Hsc and Childcare Support Developmnt	1570U40-1	Health and Social Care

The component codes are colour coded as follows:

Colour Code:

Grey – No Date/Time Assigned to the Exam or NEA.

Light Green – Timetabled Exam but candidates not roomed.

Dark Green – Exam Timetabled and Candidates Roomed and Seated.

To create an exam for a non-timetabled exam, simply click on the component code and the details popup box will appear.

Close

Save

Enter a **Date**, **Start Time** and **Duration** and a **Room** for the non-timetabled exam. Once created the component code will appear in light green in the table indicating that it's been timetabled. Once timetabled schools will be able to seat the candidates and assign invigilators to the room.

Note – Adding Candidates from the element and Add Extra Time for Candidates within the entry will automatically be selected.

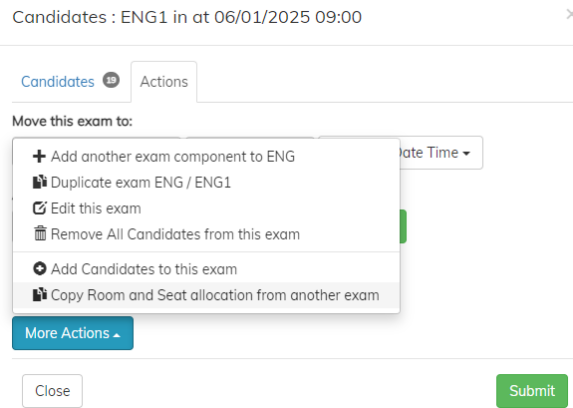

Copying an Exam

When core subject such as English and Maths, conduct a number of Mock Exams during an academic year, then copying an exam will save time for the school as this will copy the whole exam i.e. Rooming and Seating Allocation.

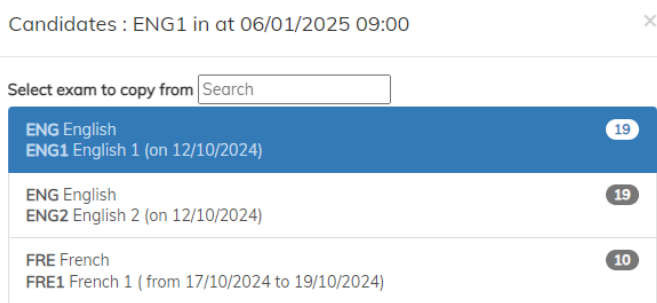

To copy an exam, simply create the exam again i.e. English Language.

IMPORTANT – To copy details from a previous exam, the previous exam **MUST BE** still OPEN, it cannot be closed. If however, the season has been closed, it can be quickly re-opened for this purpose.

Navigate to the Timetable and Seating Tab and select Add Exams by Subject. Select the number of exams per subject and select next. When populating the details for each exam there is no need to populate the room (as this information will be copied from the previous exam). Once the exam has been created, Edit the exam and select **Actions | More Actions | Copy Room and Seat Allocation from another exam**.

A list of all exams with candidates in common from all open seasons will appear. Use the search to filter the list, then select one that need to be copied from.

The number in the badge is the number of candidates in common. Once selected the rooming and seating allocation from the selected exam will be assigned to the candidates in the current exam.

Publishing the Timetable to External Sites

Schools can publish their exam timetables on external sites. Each school will have a unique URL that can be embedded into an iframe which will allow the information to be displayed.

Navigate to the **Overview Tab | Configure Exams Assist** and select **Published Exam Timetables Visible on Public Site**. Embed the URL on the school website in an iframe and the timetable will be displayed.

Published Exam Timetables visible on public site

Public url is </Embed/ExamTimetable/M1041>

Note – No pupil information will be displayed on the public website.

Restoring/Backup of Timetable and Seating

To create a backup of the timetable, navigate to the **Timetable and Seating Tab | Actions | Backup Exams Timetable and Seating**, once selected a backup will be created.

Note – Periodic backups are automatically created by Exams Assist.

To restore a backup, navigate to the **Timetable and Seating Tab | Actions | Restore Exams Timetable and Seating** and select the most appropriate backup. Once selected the timetable will be restored back to that date and time.

Restore Exam Timetable and Seating ×

Select one of the backups from the list.
A fresh backup will be made.
The Exam Timetable will be restored - exam season settings, entries and exam attendance will not be restored.

Select the exam timetable backup to restore

Restore All Seats for All Seasons in the backup
 Restore All Seats for the current season
 Select the seats to restore in the current season

Close
Restore

Emailing Exam Reminder Parents / Candidates

To email parents/candidates based on their timetable, ideal for examination reminders. Navigate to the **Timetable & Seating tab | Selected | Send Reminder to Parent or Candidate**. Once selected compose a message to send to the selected group. The message will include a list of the selected exams in the body of the email, there will also be a link to display the candidate's entire timetable.

Schedule Emails to Parents / Candidates

When emailing parents / candidates it's possible to schedule these to send at a later time. After composing the message, select **Schedule**, enter the date / time for the message to be sent then select **Send**, the messaged will then be scheduled.

Scheduled messages can be viewed in the messaging module and if required deleted.

Creating Internal Examinations in Exams Assist

Creating a new Season

To create a new season within Exams Assist for timetabling internal exams navigate to the **Overview Tab | Actions | Add new Exam Season**, enter a name the start and end date for the new season and select **Submit**.

Season Settings

Once the season has been created the Season Settings will appear, go through the settings and amend as necessary.

TIP – It is possible to define the Starting Time of the exams if these are different to other seasons. If you have three sessions during the day, ensure that you amend this setting as pictured below. Also, amend the starting for each season – AM Start, Mid-Morning and PM Start. When selecting a start time for each exam you will be able to select one of these starting times.

Adding Candidates to a Season

Once a season has been created, navigate to the **Candidates Tab | Actions | Add a group of Candidates** to add a selection or a group of candidates to the season.

Note – If a candidate doesn't have a candidate number in SIMS, then a temporary number will be created starting with a T, this is just for EA purposes.

Any previous information stored against the candidate from other seasons will display as this data is stored against the candidate and not the season. The details that are saved are Exam Name, Room/Seat Allocation and any Access Arrangements. Therefore, when a candidate is assigned to an exam they will automatically be allocated to that room and the access arrangements will be applied.

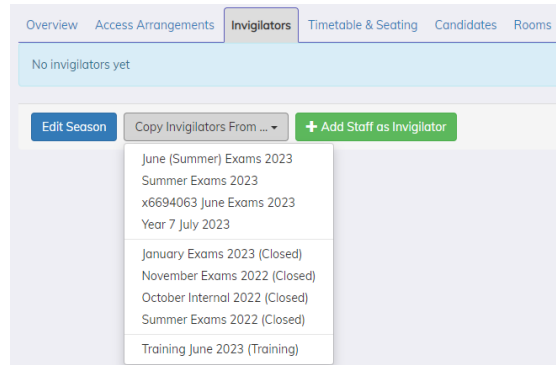

Room Tab

Any rooms that have been created/used within Exams Assist will automatically appear in the Rooms Tab, any setup added will also remain from previous seasons. If new rooms need to be added, then select **Add Room** (*Please refer to the section on adding rooms for more details*).

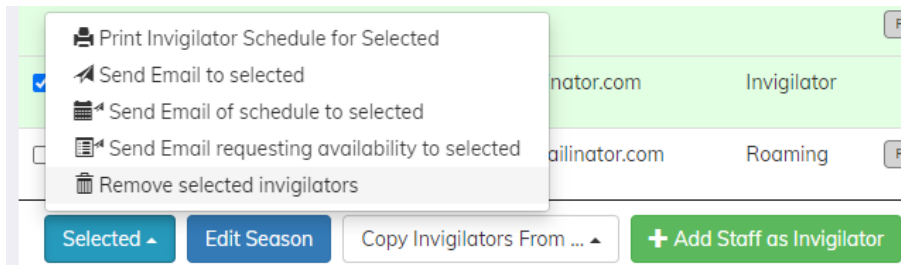

Invigilators Tab

When a new season is created the invigilators, tab will be empty, staff could be manually adding one at a time, any settings previously assigned will remain including training dates.

Tip - Copy the invigilators from a different season and then remove any are no longer required by selecting the invigilators **Selected | Remove selected Invigilators** (If the invigilator has been allocated to a room, then it will not be possible to remove them).

Select the invigilators that aren't required navigate to **Selected | Remove selected invigilators**.

Creating a Timetabled Exam

Once a season has been created there are two ways of creating timetable exams, this can be done individually per subject or by a group of subjects.

Creating a single Exam

In the Timetable/Seating Tab and select **Add Exam/Oral/Practical** and complete the relevant details within the dialog box. If creating an internal exam there is no need to enter the **Exam Board** and **Exam Level** (these are optional).

Add Exam / Oral / Practical

Add Extra Time if candidate has Access Arrangement

Close
Save

Once the exams have been created the candidates will need to be added. To add a candidate or a group such as a class, edit the exam and select **Add Candidates to the Exam**, it's possible to either add a candidate

which has been added to the season or select a group of candidates, the only groups that will appear are groups that have candidates in the season.

Note – Any candidates that have been assigned to a room in the candidate's tab will be automatically assigned to that room in the timetable/seating tab. The remaining candidates will need to be assigned to the exam room, once assigned to a room they will be ready for seating.

Add exams for a group of subjects

It's possible to create a number of exams in one action, this wizard is very quick to create a number of exams, assign candidates and allocate them to a room.

Select **Add Exams for Subject** and then select the number of exams required per subject from the appropriate drop-down menu.

When creating exams by subject it's only possible to add the classes associated to the subject.

Add Exams For Subjects

Exam Type: Exam | Duration: 1h 0m | Add Extra Time if candidate has Access Arrangement

Select the number of exams for each subject that you want to create

Agriculture	0	Art	2
Astronomy	0	Biology	1
Business Studies	0	Chemistry	1
Citizenship	0	Computer Science	2

After entering the number of exams required per subject, enter a name, date, time, duration, room and the class that needs to be assigned to the exam.

Note - Room is optional but if selected candidates will be assigned to the room until the room is full. Candidate's individual room/seat assignment takes priority.

Add Exams For Subjects

Select the time and groups for each Exam

Creating a tiered Exams

To create a tiered exam, the subject teachers will need to assign a level to each candidate from their portal. Each teacher will need to log into Exams Assist and from their homepage select the Group and then the class i.e. 11y/Ma2.

Mr Adrian Blacker GradeBook Actions

Curriculum	YearGrip Year 7	YearGrip Year 8
Exams	YearGrip Year 11 (Mixed) 11A	General Studies (Mixed) 10F
Bookings	(Mixed) 7A	RegGrip 11F
Parents' Evening	General Studies (Mixed) G	RegGrip 7B
Groups	Music (Mixed) 11A/Mu1	Music 10A/Mu1
	Mathematics 11y/Ma2	Computer Science (Canolradd) 11B/Co1
		Mathematics 13A/Ma2

Once they have selected on the class, they can assign each candidate with the appropriate level. Navigate to the Actions Dropdown and select Levels.

The member of staff can select a global level for the whole class by selecting Intermediate and then submit. This will assign the whole class as working at this level.

However, if the class is working at a mixed level, then select Mixed, When Mixed is selected the classroom teachers will be able to assign a level to each candidate. Once a level has been assigned to each candidate select Submit.

Once all classroom teachers have assigned a level to each candidate within their Maths classes, it's now possible for the EO's to create the exam based on tiers.

Navigate to the Timetable & Seating tab and select Add Exam by Subject. Select the number of exams that is required for the Maths Exams, if there are two papers – Paper 1 and Paper 2 ensure that you select 2, then submit.

Add Exams For Subjects

Exam Type: Exam | Duration: 1h 0m | Add Extra Time if candidate has Access Arrangement

Select the number of exams for each subject that you want to create

Agriculture	0	Art	0
Biology	0	Business Studies	0
Chemistry	0	Citizenship	0
Computer Science	0	Design & Technology	0
Drama	0	Engineering	0
English	0	Food & Nutrition	0
French	0	Geography	0
German	0	Hair & Beauty	0
History	0	Mathematics	2

Complete all the details regarding the exam, Component Name, Date, Time and the Location of the Exam. Finally, select the groups you'd like to be attached to this exam; you will notice that the level of the class will appear next to the class identifier.

Mathematics

Element Code: MAT | Element Name: Mathematics

Component Code: MAT1 | Component Name: Mathematics Paper 1

Date: Mon 05/02/2024 09:00 | Duration: 1h 0m | Room: English Room 1

11x/Ma1
 11x/Ma2
 11x/Ma3
 11y/Ma1
 11y/Ma2 (Mixed)
 11y/Ma3
 11z/Ma1

Once the exam has been created, you will see that a different exam will have been created for each of the different levels. Each level will contain the candidates that were assigned by the classroom teacher. This process is the same for any tiered exam such as French, Spanish etc.

Show 25 entries

	Date	Time	Duration	Clash	Subject	Room	Level	Board	Element	Component	Candidates	Seated	
<input type="checkbox"/>	05/02/2024	09:00	1h 0m		Mathematics [Exam]	English Room 1	Foundation		MAT	MAT1-F	1	0%

[+ Add Exams For Subjects](#)

[Print](#) | [Actions](#) | [+ Add Exam / Oral / Practical](#)

Once selected ensure that you select **Exam Type** as **Practical**. Then select the number of exams required for the Practical. For this example, we will do a Triple Biology Exam. If the exam is in two parts i.e. Part A – The Practical and Part B the Write Up and they are being done one after each other, then select 1 but if Part A is done in one session and Part B will be done during a different session then select 2.

Enter the details for the practical exam. If the two parts of the practical are happening straight after each other, call it Biology Practical Part A&B. Select the class that will be doing the practical Part A and B together and then enter the date and time of the exam, the length of the exam which will be 2hrs instead of 1hr. Select the room that the practical will be taking place.

If Parts A and B will be taking place during different sessions, firstly select the class, the date, time, length and room the exam will be taking place. Then scroll down to the second component and select the class and then enter the details for Part B and select Submit.

Group	Override Date	Time	Override Duration	Override Room
<input checked="" type="checkbox"/> 11x/Bi1	08/01/2024	10:30	2h 0m	English Room 1
<input checked="" type="checkbox"/> 11yz/Bi1	09/01/2024	11:30	1h 0m	English Room 3

With practical and oral exams all candidates will be seated in the allocated room, and none will be placed in any separate room that is defined on the candidate record.

Date	Time	Duration	Clash	Subject	Room	Level	Board	Element	Component	Candidates	Seated
08/01/2024	10:30	2h 0m		Biology [Practical]	English Room 1			BIO	BIO-P1	20	0%
09/01/2024	11:30	1h 0m		Biology [Practical]				BIO	BIO-P1	2	
09/01/2024	11:30	1h 0m - 1h 15m		Biology [Practical]	English Room 3			BIO	BIO-P1	24	0%

Note – From the above image it is possible to notice that 2 candidates haven't been allocated to a room, this is because the room is full, the overflow will have to be manually allocated to a different room.

Date	Time	Name	Board	Element	Component	Rooms	Duration	Cands
08/01/2024	10:30	Biology Practical Part A&B		BIO	BIO-P1	English Room 1 (0/20)	2h 0m	20
09/01/2024	11:30	Biology Practical Part A&B		BIO	BIO-P1	English Room 3 (0/24) No Room (2)	1h 0m - 1h 15m	26

Note – If you are creating these exams one at a time, remember that the Component Name and Code need to be unique. E.g. If you create an exam for the Science Class and enter the data, the component code will be "SCI-1", when you create the next exam, you will need to edit "SCI-1" to "SCI-2" (or some other unique code).

Creating Oral Exams

For Oral exams you create a session (or sessions) for the orals to run and enrol the candidates and then can set an individual start time for each candidate. When assigning to a room the normal room exam capacity can be exceeded as either it is just used as a waiting room or the candidates are not in there at the same time.

To create a single oral session in the Timetable & Seating tab click on **Add Single Exam/ Oral / Practical**

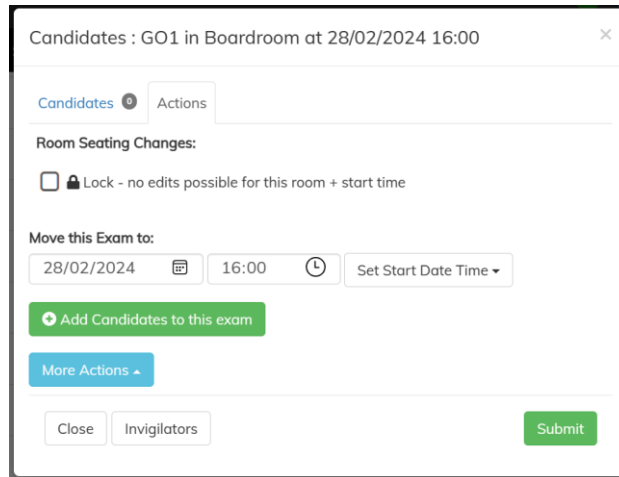

Change the Exam Type to Oral and you see some new options for **Prep Time** and **Oral Duration**

The Oral Session Duration is the duration of the session and is used for scheduling invigilators and the room.

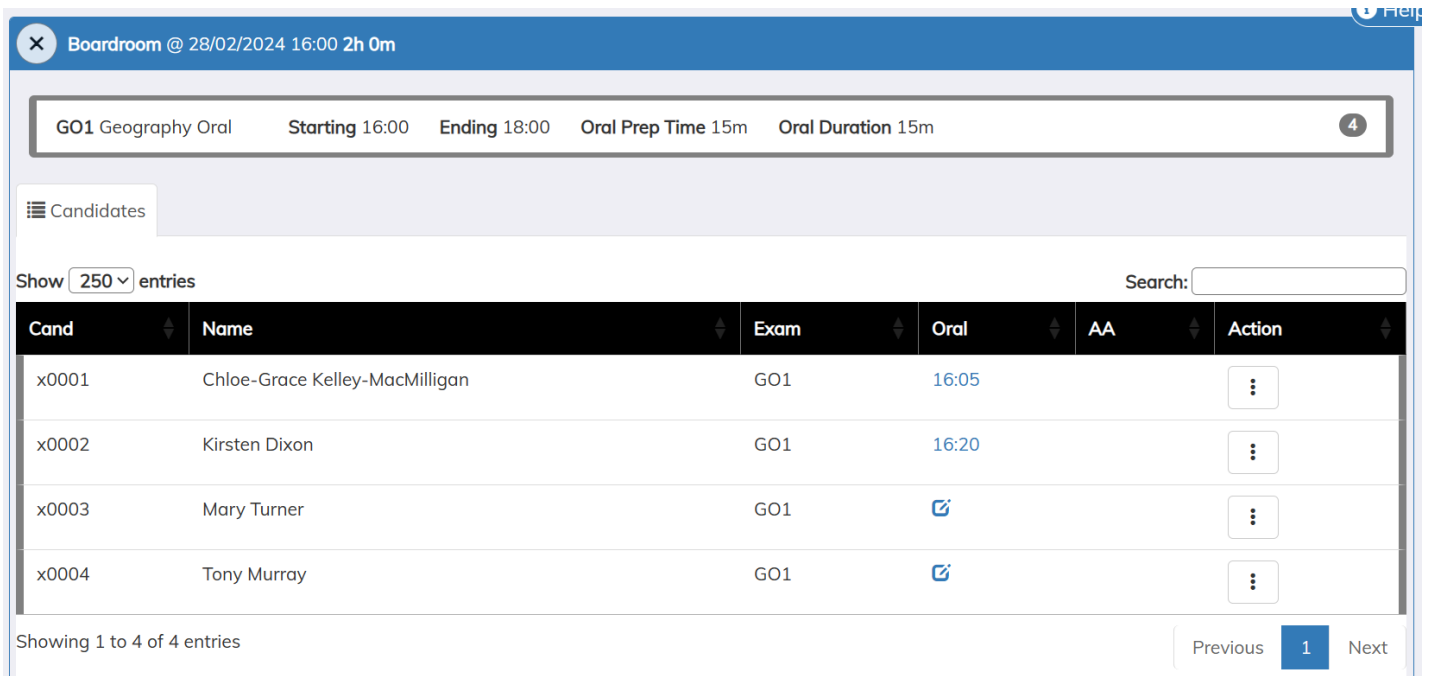

If you select an existing element or enter one already matching then candidates from that element will be added to this oral component.

Optionally select a Room to add the Oral into the room.

Save then Next to add candidates and other actions from the familiar popup.

Once you have candidates in an Oral – rather than have the seating plan when you click on the room to see the detail for the session you get to set the Oral Start time for each candidate.

The Oral details (Prep time, Duration and Start Time) are then shown on the candidate timetable.

Amending the Candidate's Number

If a candidate's number has been imported into Exams Assist, but this requires changing as it was initially incorrect, this can be changed from the Candidate's popup in the **Candidate Tab**. Locate and select the candidate that needs amending, select the edit button next to the candidate number and enter the new number.

Amending the Candidate's Name

It is possible to amend the name of the candidate that is displayed in the seating plans, attendance registers and candidate cards. This is great for candidates that are identified by a different known name. Navigate to the **Candidate Tab** and search for the candidate and select on the name, enter the amended name in the **Exam Name** box.

Adding an External Candidate

To add an external candidate to the season, navigate to the **Candidates Tab | Actions | Add External Candidate**. Once created these candidates will be available to add to any future seasons. As an external candidate they will have access to an online portal, only is an email address was allocated when the candidate was created. By allocating an email address the school will be able to send out emails to the candidate and the candidate will be able to access the online portal.

Note – The fields in red are mandatory.

How to turn a Candidate into an External Candidate

To turn a candidate that used to be at the school into an external candidate, navigate to the candidates tab, locate the candidate and select. Once selected, select **Turn this student into an External Candidate**.

Turn this student into an External Candidate

[+ Assign Candidate To Room](#)

[Student Details](#) [🔄](#) [Submit](#)

Once this has been done, the candidate will appear as an ExtCand in the Reg Group. It's also possible to filter on ExtCand making it easier to locate them.

Filter: ExtCand Filter

Show 25 entries Search:

	CandNo	Name	Reg	Room/Seat	Extra Time	AA	Exams
<input type="checkbox"/>	7008	Tina Angel	ExtCand	Library (A1)	N	0	ENG1 HIS1 HIS2 GEO1 GEO2 SOC1 AA1
<input type="checkbox"/>	7052	Damon France	ExtCand		N	0	ENG1 HIS1 HIS2 AA1 ART1

Note – This can only be done to a school leaver candidate and once converted it cannot be changed back.

Assigning Candidates to a Room and Seat

It is possible to assign a candidate to a room and/or a seat within a room. This is a great function for schools that assign their candidates to the same room and seat for all their exams. It's also a great function for assigning candidates that are entitled to a reader, scribe or smaller rooms to that room so they can automatically be assigned.

To assign a candidate to a room navigate to the candidate tab and search for the candidate you need to assign to a room. When a candidate is selected, select Assign Candidate to a Room, locate the room and then assign to a seat (if required). Once you submit this request the candidate will be auto roomed and seated for all their exams. However, it's possible to select only assign a candidate to the room/seat for a specific season.

Note – If a different candidate has already been assigned to a seat within a room you've selected for a candidate, then this seat will be coloured in red, and you will not be able assign the candidate to that seat.

TIP – If seating has been done for all candidates for a season, but you get notified that a candidate needs to go into a smaller or a separate room it's always possible to quickly assign them to a room using the above function. Even if a candidate has been seated in a room, once a candidate has been assigned a room in the candidate tab as soon as you select **Submit** the candidate will automatically be removed from the previous room and seated in the new one (Future dates only).

Category of Risk

To indicate a candidate as having a level of risk within an exam (these could be for behavioural issues), navigate to the Candidate Tab and select a Candidate, once selected, select Student Detail. From the drop down menu select the most appropriate category of risk, High; Medium or Low.

Category Of Risk:	None
Do Not Send Emails Until	None
	High
	Medium
Parents	Low

* = Priority 1 Parent

By selecting a category of risk for a candidate, then one of the three icons will appear on the seating, making it quick and easy for the invigilators to see where these candidates are sitting. This is also useful when the seating plans are being created.

Viewing Candidate’s Timetable Popup

To view a candidate’s exam timetables magic link that can be emailed to the candidate, select a candidate and select the Link icon at the bottom of the details tab.

Editing a candidate’s Access Arrangements

Edit Access Arrangements for Jamie Barnett

Full information on [Managing Access Arrangements in Exams Assist](#) can be found in that link.

Remove Candidate from an Exam Season

If a candidate has been added to a season by accident, or no longer has any entries for an exam, this candidate can easily be removed from the season. In the Candidate Tab, select the candidate that needs to be removed and navigate to **Selected | Remove Selected Candidate**.

Emailing Candidate’s Exam Timetable

When emailing the candidate or parent carer the exam timetable, schools will be emailing a dynamic link to the timetable. As this is a dynamic link that works across all open seasons, when a candidate/parent selects this link, it will always display the latest information from Exams Assist.

Tip – When Candidates / Parents receive this link, encourage them to save this as an icon on their mobile device as they don’t need to be signed in to view this information. No information, other than candidate’s full name is included within the link.

To send these out to candidates / parents, navigate to the Candidate Tab and either select candidates or filter by a year group etc. and select all. Once candidates have been selected, navigated to **Selected | Send**

email with Exam Timetable to Parent or Student. Once selected it's possible to create a message to accompany the timetable magic link, tokens can also be used within the content of the email.

Once the timetables have been emailed to the candidates / parents it's possible to monitor the delivery status of this message by navigating to the Main Menu and selecting Message Sent. Select on the message sent and view the status of the message.

Once the emails have been sent it's also possible to monitor if the Candidates/Parents have received/opened the link within the email and viewed their timetable.

Retakes Tab

This will display a list of the candidates that have been identified as having a resit. This tab is populated by doing a scan for resits from the **Entries Tab | Actions | Scan for Retake**. It is possible to select a candidate and navigate to the entries tab and any entries that are identified as retakes will also be identified here in brackets.

Managing the Scheduler

The scheduler tab is used to schedule the staff/invigilator to the Examination Room in an exam season. The examination information contained in this tab is the same as from the Timetable/Timetable and seating tab but is grouped by Start time and Room. The Staff/Invigilators have already been allocated to the season and their availability has been received and this information will now be used to schedule them to an exam room.

The scheduler is sorted by date, but it is possible to schedule one day at a time by using the **Date Filter** tool.

Date	Time	Duration	Room	Note	Exams	Cands	AA Cands	Invigilators	Action
01/06/2023	09:00	1h 45m	English Room 1		En: EnP1	8002 Andrews, Maya 8003 Andrews, Wyatt	0	0/1	Edit
02/06/2023	13:15	2h 00m	English Room 1		En: EnP2	8002 Andrews, Maya 8003 Andrews, Wyatt	0	0/1	Edit
27/06/2023	09:00	2h 00m - 2h 49m	English Room 1		MaH: MaHP1 MaF: MaFP1	3	1	0/2	Edit

The following information can be viewed in the table:

Date – This is the date of the Examination.

Time – This is the start time of the Examination.

Duration – This is the length of the exam. If there is extra time or multiple exams in the room, it will display the shortest and the longest length in the room.

Room – This is the room the examination has been allocated to, if there are multiple exams in the room, they will all be visible.

Notes – If any notes have been added against the room, then a note style icon will be displayed next to the room name.

Exams – The component codes of each exam(s) that are taking in the exam room.

Candidates – This displays the names of all the candidates (Inc. AA candidates and their requirements) that are sitting in their exam in that room.

AA Candidates – This displays the names of the candidates that have AA in this exams room.

Invigilators – Displays the names of staff/invigilators that have been assigned to this exam room.

Edit – Used to assign staff/invigilator to the exam room by selecting **Add Invigilator**, if a note has been added by the invigilator this will be visible when assigning them. To assist with the number required it gives the Candidate Counts in the room. Once all the invigilators have been allocated it's possible to mark the

Allocation is complete. As invigilators/staff get allocated to a room it is possible to allocate a role to these in the room such as Lead Invigilator, Reader, Scribe etc. These roles will be visible to the invigilators on their portal so each staff member will know their role within the exam room

The estimated number of invigilators required per room is:

If 0 candidates then = 0
 If <=2 candidates = 1 invigilator
 if any AA and <30 candidates = 2 invigilators
 if any AA and <60 candidates = 3 invigilators
 else
 = 1 invigilator per 30 candidate

Invigilators
Candidate Counts

Number Of Invigilators Required

There are no more available Invigilators/Staff

Add Invigilator

Invigilator / Staff Allocation is complete

This room requires IT/AV Equipment

This room requires Learning Support Staff

Room Note

Close
Roaming Invigilate Now
Save

It is also possible to identify if the exam room requires any IT/AV equipment, as well as being able to add a note to the room, this note will be visible to the staff/invigilator on the attendance register i.e. This Exam will require a DVD Player. If an exam room has been identified as requiring IT equipment, then this room will appear on the IT support invigilator link.

Roaming Invigilate Now

If there is a need to visit a specific date as a roaming invigilator, as this is not possible to do in the past from the invigilators portal, then navigate to the Scheduler Tab, select the room that needs to be accessed and select **Roaming Invigilate Now**.

Excluding Exams on the Public Website

If the school allows the timetable to appear on a public website, then from the scheduler it's possible to select for a specific exam NOT to show on the site. By default this is unselected and all exams will appear.

Select Exams to not show in Exam Timetables displayed on public site

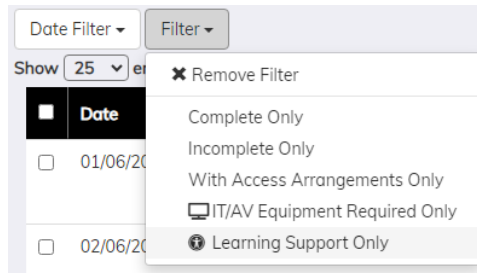

31617H1C

Room Note

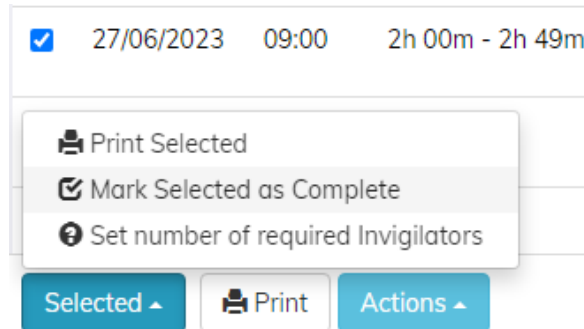

Close
Roaming Invigilate Now
Save

TIP – If there are any clashes during an exam season, as these gets resolved and a new timetabled session is created, then both seasons for the same exam will appear on the public website, this may cause confusion to the parents/carers and candidates, therefore ensure that the resolved clash sessions DO NOT appear on the school public site.

It is also possible to identify that the room requires Learning Support Staff. When selected, the member of staff allocating the invigilators will be able to use the filter – **Learning Support Only**.

It's also possible to select a number of rooms and mark them as complete by selecting **Selected | Mark Selected as Complete**.

It is also possible to print off a variety of PDF documents by selecting the rooms, e.g. Candidate Cards, Attendance Registers and Seating Plans.

Restoring from a Backup

If there is a need to restore the invigilation scheduler, this is possible by restoring a backup. Navigate to the **Overview | Edit Season | Restore | Restore Season and Invigilator Assignments**. Select the appropriate session to restore and select restore.

Downloading the Invigilator Schedule

To download the scheduler to excel, select **Actions | Download Excel Invigilator Schedule**, this will download the scheduler into excel which will include two tabs. The first tab will display the invigilators that have been allocated to a room by date and the second tab display's the component code by room and exam date.

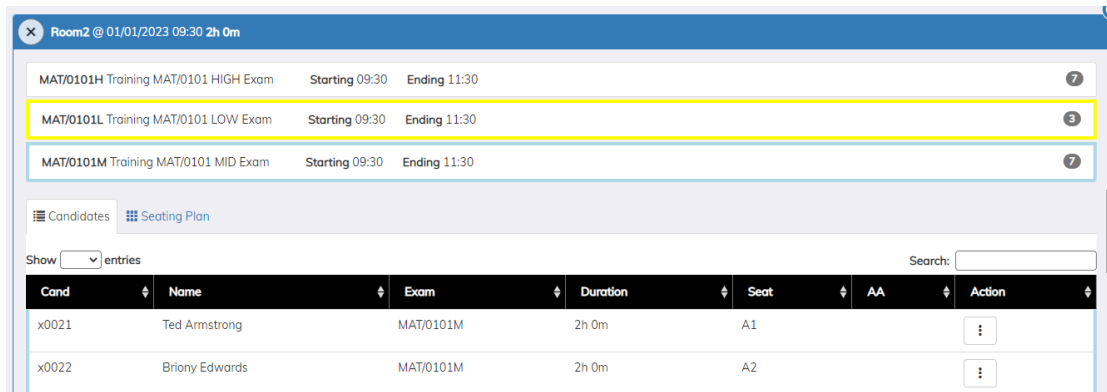

Printing the scheduler

To print the scheduler in date order, select the print option at the bottom of the scheduler, this will print a friendly version of the scheduler as it appears in the table.

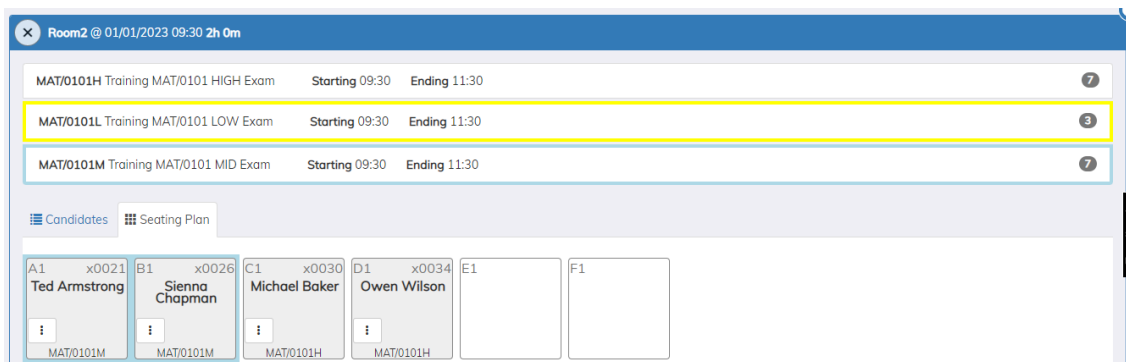

Viewing Attendance Register/ Seating Plan

To view the attendance registers and seating plans select the **Room Name**. This will display the names of the candidates, the exam they are sitting, duration, seat number, if they require a laptop, ET or a modified paper has been ordered for them. Following the exam it will also display if the candidate was Present/Absent or Late. The same information is displayed in the seating plan.

The Attendance Register

The Seating Plan

If more than one examination is scheduled in a room, each exam will be identified by having a colour allocated around the box. Single Exam – White (Unless stipulated in Configure Exams Assist); Second Exam – Yellow; Third Exam – Light Blue; Fourth Exam – Lilac and Fifth Exam – Green.

If a candidate has any access arrangements, then this will be identifiable by a thick stroke line around a box in the seating plan. To view these arrangements, select the action button but many icons will appear within the box.

Note – If you require a colour to appear on the first exam in the room, then navigate to the **Overview Tab | Exams Assist Configuration | Settings** and select Highlight the first exam in the Seating Plan if there are multiple.

Access Arrangement Icon Key

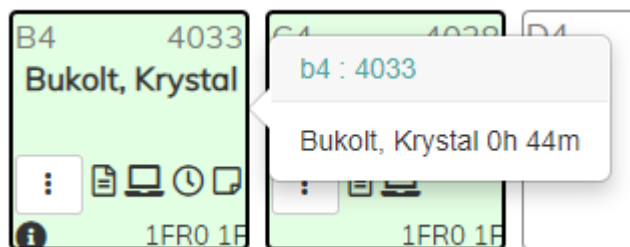

Reader		Scribe		Practical Assistant

Green Overlay		Blue Overlay		Purple Overlay	
Yellow Paper		Grey Paper		Pink Paper	
Yellow Overlay		Grey Overlay		Pink Overlay	
Red Paper		Orange Paper		Coloured Paper	
Red Overlay		Orange Overlay		Coloured Overlay	

If a modified paper has been ordered from the JCQ for a candidate then the icon below will appear on the seating plan, attendance register and the candidate card. If the candidate has requested either a laptop or a computer reader for their exam, then the icon below will appear in the same documents as the above.

Modified Language Paper		Laptop		Computer Reader	
--------------------------------	--	---------------	--	------------------------	--

Clash Icons

	This icon will indicate that a candidate has a clash on this date, however the exam with a yellow flag indicates that this exam is taking place at the official starting time as set by the exam board.
	This icon indicates that a candidate has a clash on this date and the exam they are currently sitting is being done at a different time as outlined by the exam board.

This is the Action Icon; this will bring a pop-up box providing greater information about the candidate. The Candidate Name, a list of their Access Arrangements, Notes and finally a log of everything that has been recorded for that candidate in the exam.

The Daily Planner

This tab will display all the information that you and other centre staff will require on the day of the exam. Due to the amount of information required in this tab a number of sub-tabs have been added to assist. These are explained below.

The screenshot shows the 'Daily Planner' tab in the system. At the top, there's a navigation bar with 'January Exams 2024' and an 'Invigilate' button. Below that, a sub-menu includes 'Overview', 'Exam Entries', 'Access Arrangements', 'Invigilators', 'Timetable & Seating', 'Candidates', 'Rooms', 'Schedule', 'Daily Planner', and 'Events'. The 'Daily Planner' sub-tab is active, showing a search bar and filters for '18/01/2024', 'All Day', and 'Enable Sounds'. A table below lists exam details:

Code	Board	Level	Season	Name	Rooms	Start Time	Duration	Cands
CHE1			Year 12/13 Internal Exams	Year 12 Chemistry	W.0.10 - Performance Hall	09:00	1h 30m - 1h 53m	29

Enable Sounds – To assist Exams Officers and various admin staff to keep an eye of any assistance requests it's possible to enable sounds, so when a member of staff asks for assistance, the device will make a noise. A different sound is made for each assistance required i.e. IT required or Assistance Required.

Assistance Required Popup – To enable staff to monitor the Assistance Required Tab it's possible to select this popup and this tab will open in a new web browser. This will mean that the monitoring staff can always have this web browser open whilst continuing to work in other browsers.

Exam Tab

This tab displays all the exams taking place on a specific date, it is also possible to filter to display AM or PM only. By selecting the component code, it will be possible to view and print the attendance registered, if completed they will show the applicable colour.

Started and Absence Tab

This tab displays the start / end times of the exams in a room, absent candidates and if assistance has been requested. This tab auto-updates as the invigilators complete the registers in the exam room.

Here is a break-down of what each of the tick's means:

Tick One – This means that the Invigilator/Staff attendance has been taken for the room.

Tick Two - This indicates if the attendance has been taken for that room, if it's in orange the register has been partially taken and green indicates that it's been completed.

Tick Third – This indicates that the exam has been started.

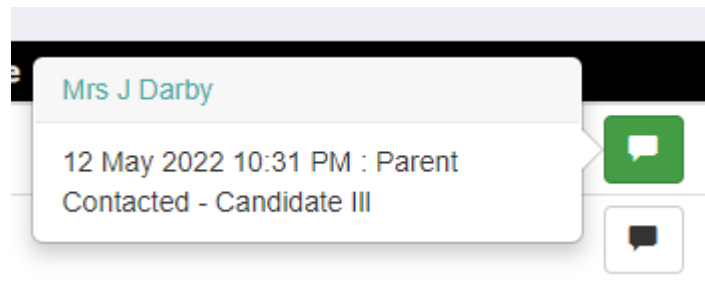

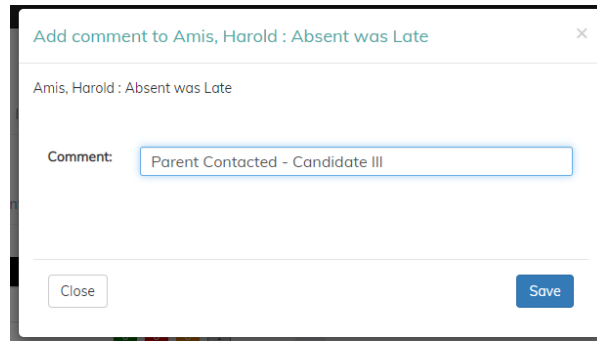

Fourth Tick – This indicates that the exam in that room has finished.

The screenshot shows the 'Started and Absence' sub-tab. It displays a table for 'Start & End Times' and an 'Absent Candidates' table. The date is set to 'Thu, 15/12/2022' and 'Enable Sounds' is checked.

Room	Start	Started	End	Attendance
Room1	09:30			0 0 0 17
Room2	09:30	5:41 PM		4 3 0 17
Room3	09:30			0 0 0 13
SmallRoom1	09:30			0 0 0 1

Candidate	Start Time	Exam	Room
Valeria Bailey	09:30	SCI/1512B	Room2
Sienna Chapman	09:30	SCI/1512B	Room2
Michael Harper	09:30	SCI/1512B	Room2

Adding a note – As candidate or Staff/Invigilator are marked absent in the exam room, these appear in the **Absent Candidates** or **Absent Invigilator** table. Once the parent/carer has been contacted it's possible to add a note to the absence. These notes are added into the logs and it's therefore possible for the invigilators to also see these messages.

Assistance Required – The invigilator is able to request two types of support in a room – **Assistance required** and **IT Support required**. These requests are listed in a table, which also displays the reason for the request entered by the staff/invigilator in their link (this will assist the EO when going to deal with the issue).

Once actioned a note can be added against the request to keep a track of the room issues. It is also possible to enable a noise to sound if an invigilator selects either of these options. To enable the sound select **Enable Sound** in the **Daily Planner | Exams tab**. To further assist Exams Officers an icon will appear next to the room that requires assistance, this icon also appear in the roaming invigilator link. Once a comment has been entered the icon will be removed.

Access Arrangement Requirements Tab

This tab displays all the candidates that have access arrangements for that day.

Candidate	Room	Seat	Exam	Requirement
Appleton, Nicholas	Main Hall	A5	1FR0 1F	Reader Scribe Practical Assistant Word Processor
Avary, James	Main Hall	C2	1FR0 1F	Scribe

Exam Room Details Tab

This tab displays the invigilation requirements for a specific day. It is also possible for the EO to edit the invigilator scheduler. Unlike the scheduler tab this brings all the exam rooms from multiple seasons together.

Time	Duration	Room	Exams	Cands	AA Cands	Invigilators	Action
9:00AM	0h 35m - 0h 44m	Main Hall	1FR0F : 1FR0 1F	52			Edit
9:00AM	1h 30m	Caretaker Stock Room	8300F : 8300/1F	7006 Amelia, Goss	0		Edit

Notes Tab

This displays all the notes that has been added for a candidate by the Exams Officer (SIMS only will also be populated from the Comments in the AA section). This also displays any 'Room Notes' that has been entered by the EO's.

Exam	Start Time	Room	Seat	Candidate	Note
1FR0 1F	9:00AM	Main Hall	B4	Bukolt, Krystal	Comment line 1 Comment line 2 Comment line 3
8300/1H	9:00AM	Drama Studio		Aaron, Chris	Clash - AM session (edited)

Attendance Tab

For SIMS via Xporter it is possible to write the attendance data recorded by the invigilators from Exams Assist back into session Attendance AM or PM. This tab will list all the candidates that have sat an exam that day, it will show the attendance for a candidate for the exam they sat. The attendance in the exam room will be indicated by the colour in the box and it's possible to select any of the appropriate code from the MIS. This will also write a note back for the session that will say what exam the candidate was sitting and where (room and seat).

Attendance Write back (SIMS Only)

Once the attendance has been taken in the exams room, it's possible to write this data back into SIMS the Attendance/Lesson Monitor Module in 4 simple step.

Step 1 – Refreshing the Attendance Data

Navigate to **Daily Planner | Attendance**, and select **Refresh**.

It is important to refresh the data from SIMS so any attendance data entered by members of school staff into SIMS in the morning will be synced into Exams Assist (this also includes any notes). If this isn't done, any attendance data from exams assist will over-write data entered in SIMS when the data is synced.

Step 2 – Managing the Attendance Data

There are two ways of managing this task, there is a quick routine or this can be done manually.

Quick Routine

Once the attendance has been taken in the exam room it's possible to select **Set Attendance from Exams**. This will automatically complete the register and notes for each candidate. If a candidate is Present in the Exam it will give them a Present for AM or PM Reg, if the candidate was late for the exam they will be assigned an L and if the candidate was absent they will be marked as an N (or whatever has been configured).

Manual Method

Alternatively, the completion of the attendance can be done manually, once the attendance has been completed in the exam room, this information will be displayed in the attendance tab (AM and PM Exam Column). Shortcuts are available to quickly populate the AM and PM Session in the Attendance Tab.

The options available in the Actions Menu are:

- **Set Exam Present to Attendance Code /** - If selected, any candidates marked present in the exam will have a present (/) mark in the AMPM Session Column.
- **Set Exam Present to Attendance Code L** - If selected, any candidates marked Late in the exam will have a Late (L) mark in the AMPM Session Column.
- **Set Exam Present to Attendance Code N** - If selected, any candidates marked present in the exam will have an absent (N) mark in the AMPM Session Column.

Note – It is possible to manage these individually based on the schools policies i.e. a candidate may be marked late in the exam, but according to the schools attendance policy they might be deemed present and therefore they would be marked as a present not a late.

Lesson Monitor – When the attendance data is written back to SIMS, lesson attendance will also be written back based on the length of the exam. If an exam is two hours long and registration is at 9:00am, exams assist will write back a present mark for Reg, Lesson 1 and 2 (there is no additional setup for this to work).

Step 3 – Managing the Notes

When the Set Attendance from Exams is selected, the notes will be populated, this will contain the **Start Time, End Time, the Component Code, Room and Seat Number**. However, this will also enter a note for absent candidates if this is done on the day of the exam.

It is possible to apply these notes for exams in the future which could be beneficial to the teaching and pastoral staff. For any future dates the above message **Set Attendance from Exams** will be replaced with **Set Attendance Notes from Exams**.

Managing Absent Candidates – Once you have applied the notes to the exam, any candidates that are absent, select the note (by selecting the red triangle next to the attendance mark) and then delete the note this will ensure that the note is not written back into SIMS.

Note – It is also possible to add a free text note into the box by selecting the white triangle and entering a comment.

Step 4 – Submitting the Attendance data

Once the exam attendance data has been managed and the notes have been entered, this data can be submitted and written back to SIMS. Select the Submit button at the bottom of the webpage.

Write back History

It is possible to see the status of the write back, navigate to the bottom of the attendance tab and select **Write back**. Any attendance data that has failed to write back there is a facility in this dialog box to retry this sync.

Global Search

The global search function will enable any member of staff to search for any candidate taking an exam on that specific date. The search function will display the Exam Details, Room and Seat Number the candidate will be sitting in.

Daily Noticeboard Report

This report prints the information contained in the 'Exam Room Details' tab. This is a very useful report to print to display which rooms the invigilators have been assigned too.

Download Excel Daily Planner

Download a report of the list of candidates by session (AM/PM) each row will display the exam name, component code, room and seat for each candidate in the table. This download is per day, if multiple day is required then navigate to the relevant day and then download this file for that day.

Managing Results

It's possible to import results files received from the awarding bodies and manually enter a verity of results into Exams Assist. Before the results file can be imported the equivalent basedata must be in Exams Assist, however, if the basedata doesn't exist in Exams Assist the system will indicate what is required to be imported.

To make the **Results Tab** visible, navigate to the **Overview Tab | Edit Season** and select **Show Results Tab**.

Exam Embargo

Configure Exams Assist

Settings Training Attendance **Results & Embargo** Contingency Days Invigilator Checklist

Exam Results

Results Embargo - Only Exams Officers / SMT can see results.
This overrides the results day embargo below.

Students can see results in Portal when they login
Requires Result Files to be imported into SchoolWorkSpace.

Students can see results from the link in an email
Requires Result Files to be imported into SchoolWorkSpace.

Embargo in place the day before the results day and until this time on results day Embargo in place the day before the results day and until this time on results day (for staff)

Embargo Message
Results will be available from 12:00 on the 9th of January 2025
To display when Embargo is active

Results Days
09/01/2025

Results Embargo – Only Exams Officer/SMT can see results – When this option is selected, only staff with Exams Officer Access Rights will be able to view results in Exams Assist (this applies to all seasons).

Students can see results in the portal – Select this option if the candidates should view their results on their portal, the results will be visible unless any embargo are in place.

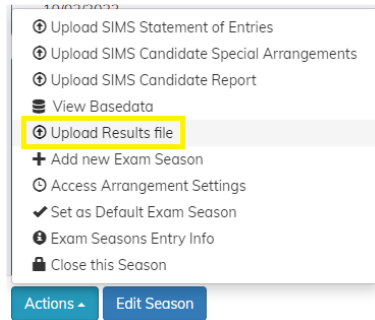

Embargo Until/Embargo Staff Until – This is the date that the embargo will be valid too, after this date the results will be available for the staff and candidates to view in their portal (it's possible to set different times for each).

Embargo Message – Enter the message the candidates should see when the embargo is in place. This message will be visible in the portal under the Result Tab.

Results Days – By entering the results date, the results will not be available for the candidates to view until the Thursday of that week.

Importing Results via an EDI File

Navigate to the **Overview Tab | Actions | Upload Results File**. Locate the file(s) that's been downloaded and import into Exams Assist.

Tip – It is possible to import a number of results files at a time and for any season i.e. if you have 10 result files to import from multiple seasons, then these can be imported at the same time.

Import Message – When results files are imported, the status of the import will be displayed. If any results have failed to be imported the reason will be provided, if the appropriate basedata is unavailable in exams assist then the results will not import. See section on **Importing Basedata**.

Importing Component Results File (XML File)

To import the xml file received from exam boards, navigate to the **Results Tab | Actions | Upload Results File**, locate and upload the xml file.

Adding Manual Results by Candidate(s)

Navigate to the Candidate Tab | select candidate(s)| Selected | Add Qualification Results.

Enter the appropriate QAN or QWAD (Wales Only) code, then select Next and then enter a valid grade/mark for the candidate(s).

Add Qualification Results to Selected Candidates ✕

QAN : 60142923
 QWAD : ➔ C00/1569/2

Level

Subject

Qualification

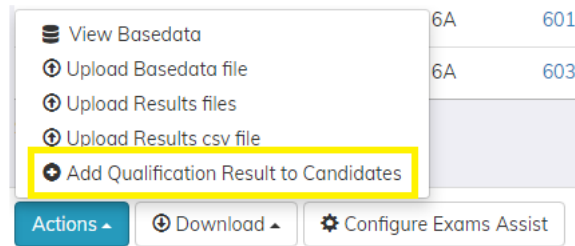

Year Month

Student	Grade
Kalpina Fatania	<input type="text"/>

Only rows with a grade will be saved, a grade of X will delete an existing result row.

Adding Manual Results by Group

Navigate to the Results Tab | Actions | Add Qualification Results to Candidates and select a group (this can be any groups within the MIS or Groups Created in Exams Assist).

Once selected, enter the QAN/QWAD (Wales Only) code and select Next, then enter a valid grade/mark next to each candidate in the list.

Note – If a candidate is left blank then no grade/mark will be allocated to that candidate.

Adding Results via a CSV File

Navigate to the Results Tab | Actions | Upload Results CSV File.

File Format:

Date, UCI, QAN, Grade (the UCI can be replaced with CandNo)

- **Date** is the date for the qualification e.g. 30/06/2024 for a June 2024 (24/6A) result
- **QAN** is the QAN code e.g. 603/3139/2 - with or without the "/"
- **UCI** is the 13 character Unique Candidate Identifier
- **CandNo** is the 4 digit candidate number for this centre
- **Grade** is the grade awarded - this is not validated against the QAN to check if is valid for the qualification

Uploading UAL Exam Board File

Create the following report from their website and download as a CSV:

(Batch_Run_Cohort_ID,Start_Date,End_Date,Learner_ID,Provider_Centre_s_ID_for_learner,Given_name,Family_name,Qualification_Name,RITS_Code,Provider_Centre_Entity_Name,Site_name,Textbox32)

IMPORTANT – When adding results manually Exams Assist DOES NOT validate the data entered, you need to ensure that you enter the correct Grade/Mark.

Editing Exam Results

If exam results needs to be amended due to remarks or an admin error, this is possible by navigating to the results tab and selecting the qualification that the grade needs to be changed for. Once select, find the candidate and select the Edit Button.

Enter the new Grade/Mark, this will then be updated for the candidate and the history of changes will appear in the logs for that candidate.

Viewing absent Candidates

To assist schools managing their results against the absences it's possible to view the number of candidates that were missing from the exam (this feature will only work if the registers were taken electronically using Exams Assist).

Board	Level	Series	Code	Title	Subject	Count	Absent Count
EDEXL/KSQ	BTNG/B	24 / 6B	20168K	DISPUTE SOLVING IN CIVIL LAW	Law	16	0
EDEXL/KSQ	BTNG/B	24 / 6B	20170K	APPLYING THE LAW	Law	7	0
EDEXL/KSQ	BTNG/B	24 / 6B	31617H	PRINCIPLES AND APPLICATIONS OF SCIEN	Science	7	1
EDEXL/KSQ	BTNG/B	24 / 6B	31619H	SCIENCE INVESTIGATION SKILLS	Science	1	0
EDEXL/KSQ	BTNG/B	24 / 6B	40888M	BEHAVIOUR AND DISCIPLINE IN THE UNIF	Public Services	9	2

When the component code is selected it is possible to see the attendance by colour. If the candidate was marked present in the exam then the result line will be coloured in Green, then Yellow for Late and Red for Absent. A great way for double checking if all candidates that were present in an exam has a result.

Viewing Results in the Staff Portal

Once the results are imported, these will appear in the **Results Tab** listed by element. It is possible to view the results by element by selecting the element code or by subject by selecting the name of the subject.

■	Board	Level	Series	Code	Title	Subject	Count
<input type="checkbox"/>	AQA	Level 1/2	24 / 6A	60142923	AQA Level 1/Level 2 GCSE (9-1) in English Language	English	2
<input type="checkbox"/>	UAL	Level 4	24 / 6A	60331392	UAL Level 4 Foundation Diploma in Art and Design	Science	1

Assigning to a staff member – The staff that are able to view the results are linked to the staff associated to a subject within the entries tab. If a staff member is unable to view their results, navigate to the Entries Tab and assign the appropriate member of staff to the appropriate qualification.

Assigning to a subject – Select the qualification(S) | Selected | Set Subject for Selected, once selected select the subject to assign the qualification too.

From the results tab, it's possible for the exams officer to download the broadsheet and export to excel.

Viewing Subject Results

When a subject is selected, all codes for that subject will be displayed for all candidates i.e. for history all the GCSE and GCE will appear. This can be filtered down to by Year Group as well as being able to include results from the previous year (previous season results are coloured in Yellow). It's possible to either print or download these results to excel.

Printing Exam Results

To print off the candidates statement of results, navigate to the **Candidates Tab | Select Candidates | Selected | Print Selected** and select the report called **Statement of Results**.

Note – If you only want this Year's Results to appear ensure to select Filter Results by Dates, it will only display the results between the dates at the top of the popup box.

Printing Exam Labels

To print off Exams Labels to place on the envelopes, navigate to the **Results Tab | Select All Exams | Selected | Print Selected** and either select the report called **Candidates Address Labels or Name Labels**.

Note – For the Candidate Address Labels to display the names, ensure that you allow SchoolWorkSpace to access Address from the MIS. **Schools Settings | Data | Xporter/Wonde/Arbor/Bromcom on demand settings** and ensure that **Include Student/Parent Address**.

Creating & Recording NEA Results

Creating NEA gradebooks is a simple process, these are created based on the entry codes. Follow the simple steps below to create the gradebooks for staff to be able to complete.

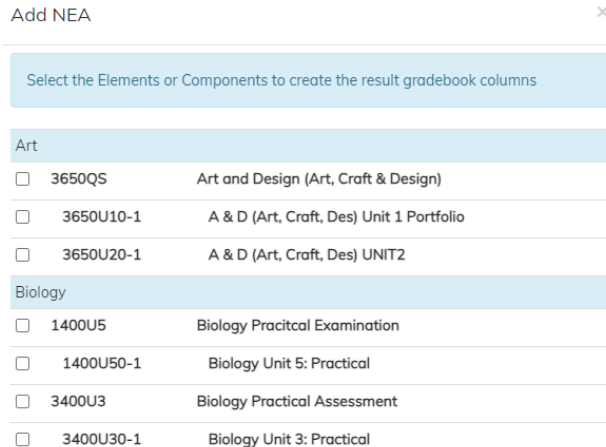

Step 1 – Navigate to **Overview | Edit Season** and select **Show Results Tab - for results files imported from the exam boards**.

Step 2 – Ensure that the Entries have been made and imported into EA for the season that require the NEA to be recorded for.

Step 3 – Navigate to the Results tab and select **Add NEA**.

Step 4 – Select all of the component that require an NEA column created in a Gradebook and select **Next**. Once selected enter a date for the columns to be visible to staff and also what type of grade to be used for the Grade.

Once selected, all columns will be created in the gradebooks and a breakdown of each column and its heading will appear in the Results Tab.

Exam Name – By selecting the Exam Name users will be able to view/edit details of the column selected. Details such as Column Title, Active From and Too and also the trip of result that is expected.

Creating & Recording Mock Results

Step 1 – Navigate to **Overview | Edit Season** and select **Season Type – Mock / In-House** and **Show Results Tab - for results files imported from the exam boards**.

Step 2 - Navigate to the Results tab and select **Add Mock Results**.

Step 3 – Select all of the component that require a Mock Grade column created in a Gradebook and select **Next**. Once selected enter a date for the columns to be visible to staff and also what type of grade to be used for the Grade.

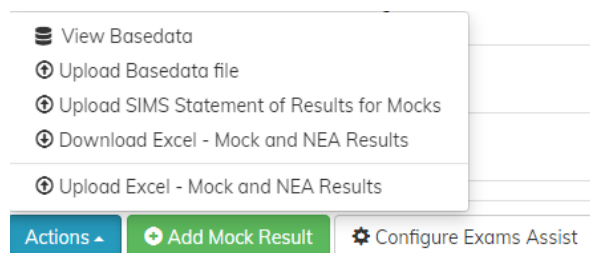

Once selected, all columns will be created in the gradebooks and a breakdown of each column and its heading will appear in the Results Tab.

Year Goup	Subject	Exam	Gradebook
12	Spanish	SPA Spanish	
13	Spanish	SPA Spanish	
12	Sociology	SOC Sociology	

How to download and upload a spreadsheet

Once the Gradebooks have been created it’s possible to download these as an excel file for the purpose of staff being able to view the data that has been entered or alternatively, the school can manually enter data into the spreadsheet and then upload these results to EAs.

To download/upload a spreadsheet navigate to the **Results Tab | Actions** and select the appropriate option.

How to Upload a SIMS SOR for Mocks (SIMS ONLY)

If schools have created results Marksheets in SIMS for the purpose of recording mock results, these can be imported into EA via the TSV File for the Statement of Results.

Managing Events

The event tab will display any types of events that occur in an exam room. The type of events that are displayed are Malpractice, Special Considerations, Absent, Late, Late Start, SRB, Toilet Breaks and Move Seats. Each of these events are filtered into a different tab making it easier for Exams Officers to look at a different type of event.

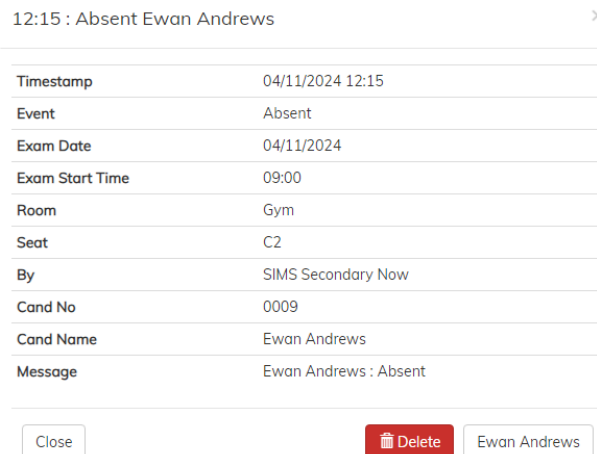

How to Adding a Note

To add a note to any event, navigate to required tab, locate the candidate and select the note icon on the end of the table.

Tip – This is great for recording updates in relation to a Malpractice/Special Considerations case. Use the note function to record that you’ve notified the JCQ of an issue, record the outcome and also if the parent/candidate has been notified.

How to Delete an Event

To delete an event recorded by a staff member, navigate to the appropriate tab and select on the time hyperlink of the event and select delete.

Note – This deletion is irreversible.

Configuring the Candidate Portal

Parents and Candidates are able to log into the Portal either by the email registered with the school or the school can create login codes which can be issued to the Parents/Candidates.

Creating Login Codes

To create codes for the parents or the candidates to log into the online portal, navigate to **School Settings | Other Settings | Setup logins**. Select **Generate Login Codes**, once created you will be able to download or print these codes for distributing.

For login for Students, Staff and Parents to SchoolWorkSpace

Students, Staff and Parents can register/login if they have an email address. Alternatively users can login with a unique login code that you can generate.

UserType	Count	With Email	Without Email
Staff	113	104 - 92%	9
Students	4367	482 - 11%	3885
Parents	1967	1505 - 76%	462

More Stats | Download | Print | Generate/Clear Login Codes

Setup

For candidates to view their Entries / Access Arrangements and Results on their portal (Note – Parents are not able to view the Candidates Results, by default), ensure that the following are select – **Published to the Parental and Students Portal** and **Students can see results in Exams Assist**.

Settings For Season : January Exams 2025

Details | Invigilators | Portal

Published to the Parental & Students Portal
Exam Entries, Access Arrangements, Exam Timetable (and optionally Results) can be viewed when they login to SchoolWorkSpace or using the link in the Exam Timetable email

Edit Message Shown To Parents | Edit Message Shown To Students

Results Embargo – Exams Assist has a configuration for multiple results days for results days. The day before results days and until the configured time on results days' exam results will only be visible to staff in the exams officer role. The default dates for results days is the 3rd and 4th Wednesday in August for the GCE and GCSE results. The Results Embargo check box is for any other time a school may not want candidates or staff to view the results in Exams Assist, and needs to be manually cleared.

Following the exam embargo the candidates will be able to view their results for multiple seasons within the portal. The results are broken down into seasons to make it easier for them to view, these results will appear in an additional tab next to their timetable.

Dashboard | Access Arrangements | Results

Results Embargo Active
The Exam Results will not be visible until the 15th of August at midday

Allowing Candidates and Parents to Confirm Entries

To allow either the Candidates or Parents to view/confirm their entries navigate to **Overview | Edit Season | Portal and select Parents and/or Candidates** can confirm their Entries in the Portal. Once selected Parents and Candidates will be able to view their entries and then have the ability to confirm that the following

are correct – Entries; Access Arrangements; Name on Certificate and Date of Birth. From the Edit Season it’s also possible to add a note to explain to Candidates / Parents of what that they are required to do.

Confirm Name and Entries : January 2025 ✕

Ackton, Stephen

I confirm that 'Name on Certificate' is correct
 Yes No

I confirm that Date of Birth is correct
 Yes No

I confirm that the entries shown are correct
 Yes No

Creating a Training Season

To help Exams Officer learn how to use Exams Assist and also train Invigilators/Staff, it's possible to create a Training Season. Creating a season is very simple as everything is created for the user from Entries, Access Arrangements Rooms, etc. All candidates used in a training season are dummy data, but the training season will use the Access Arrangements that are used by the school. Once the training season is completed the season can be deleted. All functionality within a training season is the same as what is contained in a normal season, the only difference is Attendance Data will not be able to be written back to SIMS.

How to create a Training Season

Navigate to the Season Dropdown menu and select **Add/Edit Training Season | Add New Training Season**.

The screenshot shows a modal window titled "Add Training Season" with a close button (X) in the top right corner. At the top left of the modal is a dropdown menu labeled "Add new Training Season". Below this is a blue informational box containing the text: "Add a new training season, this will create an exam season in SchoolWorkSpace and assign some sample candidates and exams. An exam timetable will then be built for these entries and the candidates seated in sample rooms. You can then use this training data for most of the functions of Exams Assist." Below the box are several input fields: "Season Name" (with a red border), "Number of Candidates" (with the value 50), "Number of Invigilators" (with the value 5), "Season Start" (with the date 19/11/2022 and a calendar icon), and "Season End" (with the date 26/11/2022 and a calendar icon).

Give the Season a name, enter the number of candidates and invigilators that you required, finally the dates that you will run the training. Once the season has been created you will be able to use every element of these manuals to assist you in learning how to use this software.

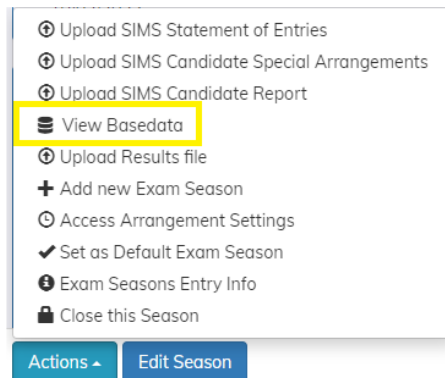

Managing Basedata

In order for schools to import their results into Exams Assist the appropriate basedata will be required in the system (The most common basedata will have been imported). The basedata is required as results file doesn't contain any information about the qualification only the result/grade.

Schools that require to import their Edexcel 7b File then they will need to import the basedata received from the exam board.

Viewing/Managing and importing Basedata

Navigate to the **Overview Tab | Actions | View Basedata**

The basedata is broken down into seasons, then exam board and finally each individual level. To view the basedata for any qualification, navigate to the appropriate season, select the awarding boarding then the level and use the search functionality to locate the appropriate code.

Syllabus	Code	Title	QCA	QAN	QWAD	Components
3300PF Mathematics Foundation	3300PF	Mathematics Foundation	2391		C0007204	3300U10-1 3300U20-1
3300PH Mathematics Higher	3300PH	Mathematics Higher	2391		C0007204	3300U50-1 3300U60-1

If the required basedata is not in Exams Assist it's possible for this to be uploaded, navigate to the basedata table, **Actions | Upload Basedata File**. Locate the .zip file and import.

Tip – You are able to import a number of basedata files at once, when importing the files select a number of files and import.

Important – All basedata files must be uploaded into EA before results files can be imported. Most common basedata files will have already been imported, but there may be a need to import Edexcel BTEC specific files.

Managing Gradebooks

How to Edit a Gradebook

To edit the gradebook select **Actions | Edit Gradebook**. From this dialog box you will be able to add student attributes such as FSM, EAL or SEN. You can also hide or make a column read-only and finally you are able to move the order of the columns by selecting the up and down arrows.

The screenshot shows the 'Edit GradeBook' dialog box. The 'GradeBook Title' is 'Year 9 Physical Ed 9y/Pe2'. The 'Subject' is 'Physical Ed' and the 'YearGroup' is 'Year 9'. Under 'Student Attributes', there are checkboxes for FSM, PP, EAL, SEN, and Gifted. A table below allows editing columns:

Column	Hidden	ReadOnly	Move
Bleep Test	<input type="checkbox"/>	<input type="checkbox"/>	↑ ↓
PE Exam	<input type="checkbox"/>	<input type="checkbox"/>	↑ ↓
Target Grade	<input type="checkbox"/>	<input type="checkbox"/>	↑ ↓

A 'Save' button is located at the bottom right of the dialog.

Note – The Student Attributes will only display if the school allows the data share of this data item. To able this additional data, navigate to **School Settings | Data | Xporter on Demand Settings**.

How to add Exam Codes to a Gradebook

To add exam entry codes to a gradebook, navigate to a gradebook, then select **Actions | Edit Gradebook** and enter an Exam Entry Codes in the appropriate box.

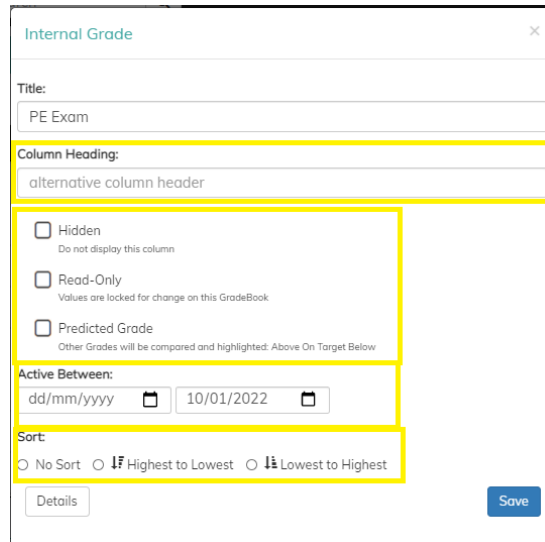

How to view a result for an individual Pupil

If you select a pupil in the gradebook you will be able to view the results for that individual pupil. It will also display the date and the name of the teacher that entered the grade. It is also possible to add a new grade and the old grade will be stored in the history.

It is also possible to print these set of results for this individual pupil by selecting 'Printable Version.'

How to edit a column heading

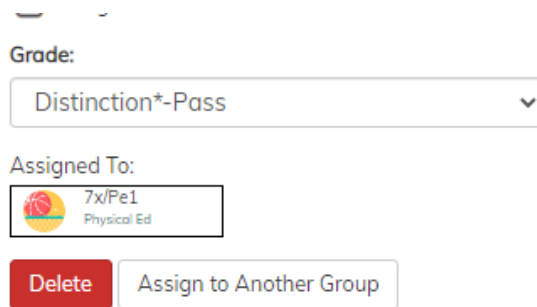

It is possible to edit the column of a grade by clicking on the column heading. From this dialog box you will be able to give the column a new shorter heading, hide a column, make a column read-only or make the column a predicted grade. It is now possible to sort the Gradebook by a column from this screen.

How to delete a column

If you have created a column in error it is only possible to delete this if no grades have been recorded. To delete the column you will need to edit the **Mock Grade**. Select the column heading and then select **Details** (See above). When you view the **Mock Grade** you will be able to select **Edit Mock Grade** button.

Scroll down to the bottom and select **Delete**.

However, if you have entered some grades / results you will have an error message.

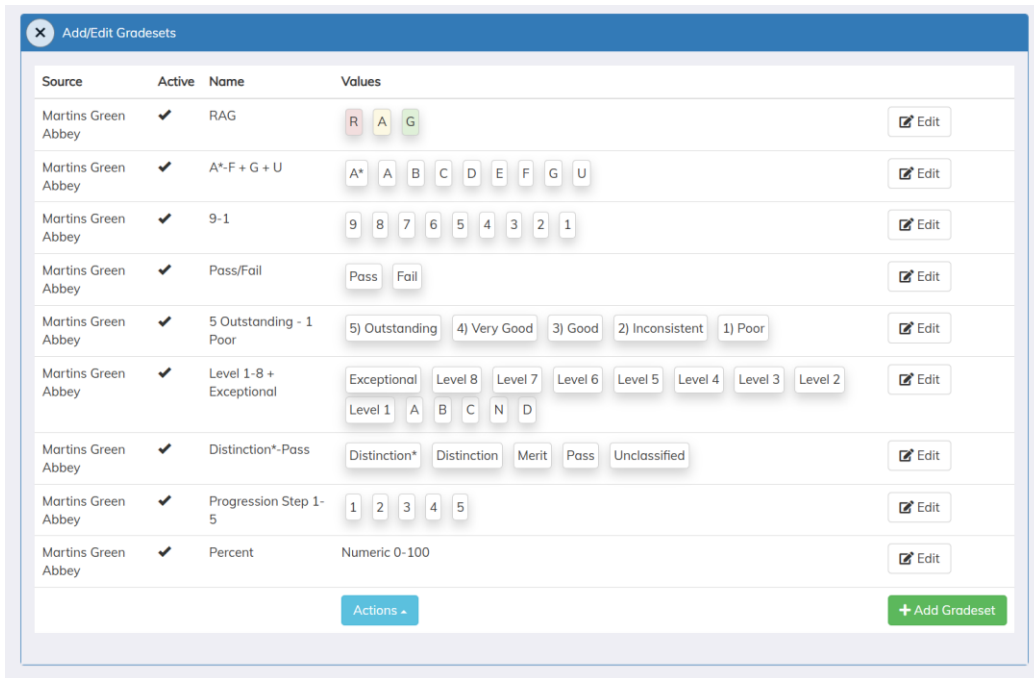

How to download a set of results

To download a set of results to an excel spreadsheet, select 'Actions' and then 'Excel Download.'

Managing Gradesets

From **School Settings** Select **Other Settings** | **Gradesets**, schools will be able to view/manage the gradesets.

How to Add New Gradesets

Navigate to Manage Gradebooks and select **Add Gradesets**.

Printing Examination Materials (Cards, Seating Plans and Registers)

It is possible to produce three types of cards using Exams Assist: Candidate Cards; Component Cards and finally Room Cards.

Candidate Cards – The ability to print off Cards per Candidate. There are three different types, one with just name and exams number, the other including the Candidate photo (if enabled to import from the MIS) and finally one with a QR code for assisting with completing the attendance register. There is also a candidate card that are created to fit on an 8 label address labels (Candidate Label – 8 per page).

To print these cards, select the 'Candidate Tab' where you will be able to see all candidates entered for an exam for that season. To print cards by Year Group just enter this group in the 'Search' box to display the candidates you want to print. Select all the candidates and then **Selected | Print Selected** and then select the type of cards required.

Component Cards – The ability to print off Cards per Component Exams. There are three different types, one with just name and exams number, the other including the Candidate photo and finally one with a QR code for assisting with completing the attendance register.

To print these cards, select the 'Schedule Tab' where you will be able to see a list of all the rooms that have exams that season. To print cards by 'Date' then select the appropriate date and then select all the 'Rooms' and then **Selected | Print Selected** and then select the type of cards required.

Room Cards – The ability to print off Cards by Room and Seat Number. These again will contain a QR code which will assist the Invigilators to complete the register.

Room QR Code

The ability to print out a QR code which can be placed on the outside of an exam room to assist a 'Roaming Invigilator.' A member of school staff will be able to scan this code and the room details will appear on a mobile device. By scanning this code, the member of staff will be able to 'Check-in' to mark that the room has been checked etc.

To print these, select Room and then the rooms that you require the QR code for. Select Room Card with Rode.

Examination Registers Printout

To print the examination registers for the exams, select the rooms that you require to print the registers for then **Selected | Print Selected | Examination Registers**.

Seating Plans Printout

To print the Seating Plans for an exam room, select the rooms that you require to print then **Selected | Print Selected | Seating Plans**. There are two different types, one which includes the Access Arrangements for the candidates or one without.

A Guide to Staff on using Exams Assist

Getting Logged in

Navigate to the following website - <https://examsassist.co.uk/>

Select – **Login / Register**, then **Login to SchoolWorkSpace**

The username will be your school email address, the address that's recorded in the school MIS. If you've yet to set a password, select the 'Forget Password' link and a 6-digit code will be sent to your email address. Enter this into the software and create and confirm a new password.

Staff Homepage

Staff will be able to access a vast amount of information from their homepage (this will also very depending on the modules purchased). By default teaching staff (if allocated to the Teaching security group) will be able to view the Exams Tab, Group Tab and the Timetable Tab.

	Entries Review	Exams	Results
<ul style="list-style-type: none"> Exams Bookings Parents' Evening Groups Timetable 	January Exams 2025		
	31463H	Personal and Business Finance	For Review
	31760H	Information Technology Systems	For Review
	31489H	Developing A Marketing Campaign	For Review
	31761H	Creating Systems to Manage Informati	Reviewed
	September Entries 2024		
	CGVV2A	Business (2018) (Award)	Authorised
	CGVV3A	Information Technology	Reviewed
	SKW05A	Information and Creative Technology	Action Required
	CGVV4A	Business	Authorised

The Exam Tab will display the entries that have been assigned to the staff member to be reviewed, a list of all exams that has been created by groups, Results and any Invigilation Scheduling associated with the staff member.

Reviewing the Entries

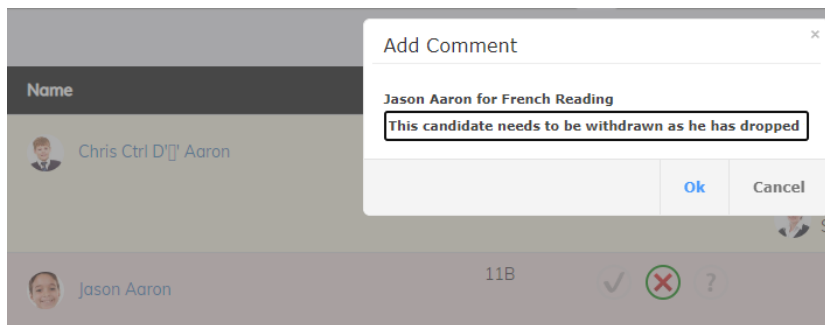

To view and check entries, select an element and you'll see a list of the candidates in Surname order. You are able to mark each entry with either being **Correct**, **Query** or **Incorrect**.

	CandNo	Name	Reg	Status	Comment
<input type="checkbox"/>	7001	Jason Aaron	11B	<input checked="" type="radio"/> <input type="radio"/> <input type="radio"/>	
<input type="checkbox"/>	7002	Liz Aaron	11C	<input checked="" type="radio"/> <input type="radio"/> <input type="radio"/>	

Or alternatively you can navigate to **Action** at the bottom of the table and select an appropriate option (see below).

Once you've gone through, checking the entries you will notice that the colour of the rows will change to either green, orange, red or stay white if no selections are made. If a member of staff marks an entry as a 'Query' or as 'Incorrect' a dialog box will appear for them to give a reason for this decision.

Once the comment has been applied this can be viewed next to the candidate. SLT members will then review these and are able to either decline or approve these requests. These will be visible to the member of teaching staff, they will too be able to add a comment which can be viewed underneath.

It is also possible (if required) to Add Candidate if they have been omitted from the entries. Navigate to the bottom of the list and select **Add Candidate** and you'll be able to search any pupil within the school, select the pupil and they will be added to the list ready for a member or SLT to approve. These entries will be marked as 'Additional' in the entries table until the pupil is added in the MIS. Once the entry is made the candidate would appear correctly in Exams Assist ready for a staff member to mark as 'Correct.'

A summary of these allocations can be seen at the top of the table.

Once you've made your amendments you will need to change the **Status** to **Action required**. These amendments will be review by a member of the SLT and then actioned by the Exams Officer as necessary.

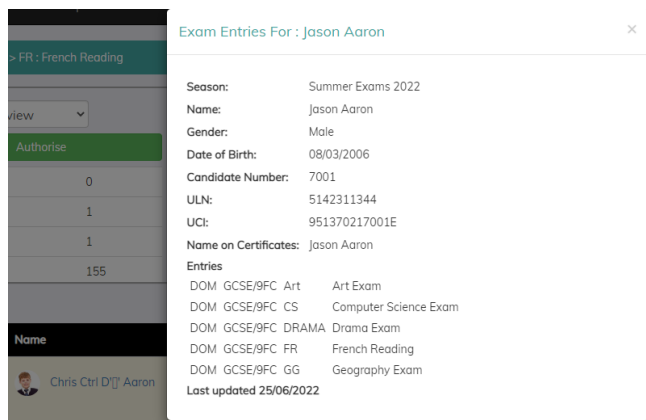

Once you are happy with these entries you are able to **authorise** these by selecting the **Green Authorise Button** – Once 'Approved' no further actions will be possible.

If you need to print a copy of these entries, there is a **Print** option at the bottom of the list of candidates.

It is also possible to switch between each entry that have been applied to a member of staff by selecting the arrow down at the top of the screen.

To view the entries for an individual, just select the candidates name and their entries would appear in a popup dialog box.

Viewing the Entries by Subject

To assist you review the entries an additional view has been added – **View by Subject**. This view will display all component codes in a table format. This view is great for modular/tiered exams as you'll see all the entry codes across the top and the candidates down the side. To view the entries in this view, from your homepage select an element that requires checking, once the page has opened select the **View by Subject** button. From this view you are able to change subject that has been assigned to you and also filter to a different level.

You have the same functionality as completing the review by list, select the column header of an element and a popup box will appear which will give you the ability to **select all blanks as correct, incorrect or query**. Once checked you are able to approve these from this view too. Any notes added to a candidate will be indicated by a flag next to the question mark symbol.

Viewing Access Arrangements

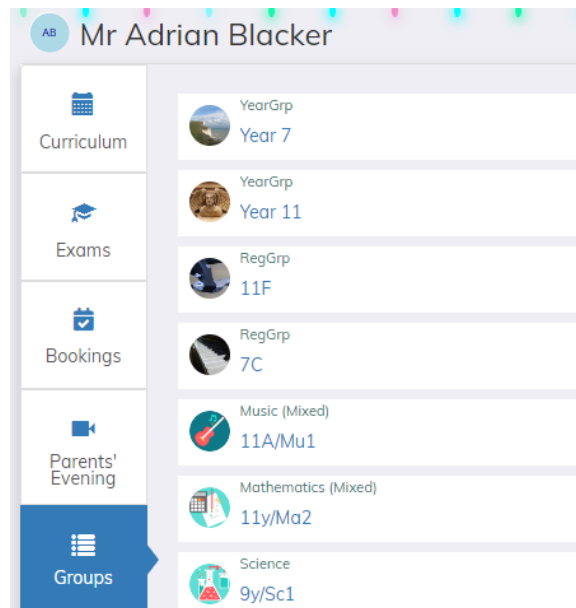

It is possible for you to view the access arrangements in place for the candidates entered for the specific element (or by component if this data has been imported). To toggle to the Access Arrangements view, select 'Access Arrangements' at the top of the screen.

You will then see the list of the candidates that have any kind of special arrangement in that Element / Component. It is also possible to view if a 'Modified Paper' or 'Laptop' is required for that examination (These will have been indicated by the EO or the school SENCO).

Adno	Name	Gender	Reg	CandNo	Component	Access Arrangements	Extra Time	Modified Paper	Laptop
004609	Harry Angler	Male	(11A)	4009	1FR0 2F Speaking (F)	Reader Scribe Practical Assistant Word Processor	✓	✓	✓

To view Access Arrangements for Candidates within a staff members teaching classes, staff can select the Group Tab, then select a Teaching Class.

Select the appropriate group, then Members. A list of candidates within that group will appear with any Access Arrangements Icons assigned to them.

Name	Level	Access Arrangements Icons
Chris Aaron	(Higher)	[Icons]
Liz Aaron	(Foundation)	[Icons]
Harold Amis	(Intermediate)	[Icon]
David Barton	(Syllaenal)	[Icons]
Martin Chapping	(Canolrad)	[Icon]
Emily Dickson	(Uwch)	[Icons]
Jack Eckhart	(Higher)	[Icons]
Denise Elija	(Intermediate)	[Icons]
Mia Fell	(Intermediate)	[Icons]
Stuart Frankwell	(Intermediate)	[Icons]
Victor Geofferson	(Intermediate)	[Icon]
William Godfrey	(Intermediate)	[Icon]

Viewing Results

Teaching staff will also be able to view the results assigned to them but also the results for the whole season by element. Also (if applicable), you will be able to view the previous year's results too.

To view individual candidate results, use the global search at the top of SchoolWorkSpace and search the candidates, once located select the Exams Tab then Results.

Viewing Internal/External Exams assigned to your Groups

To view any exams assigned to a staff members group, select Exams from the Homepage and then the Exams subtab. This will display any exams that are created/assigned to a group.

Additional Functionality for Staff

From this view, staff can select a candidate and view their details, timetables and exam timetables.

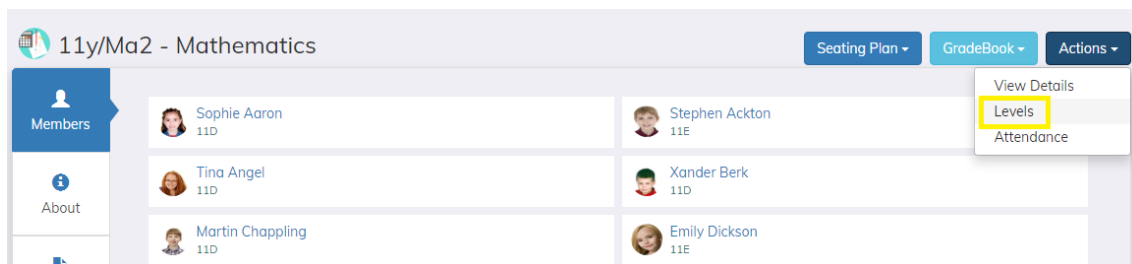

How to assign Groups to a Homepage

If as a staff member you require to view a group that you're not assigned too, then it's possible to have these appear in your Group. Use the Global Search at the top of SchoolWorkSpace and search for the class, once the group's homepage, navigate to **Actions | Add x to My Groups**.

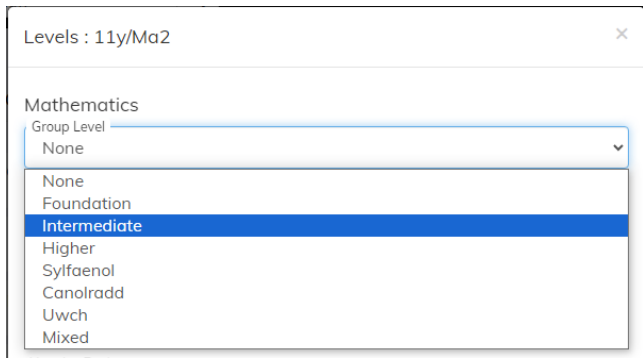

Assigning Levels to Teaching Sets

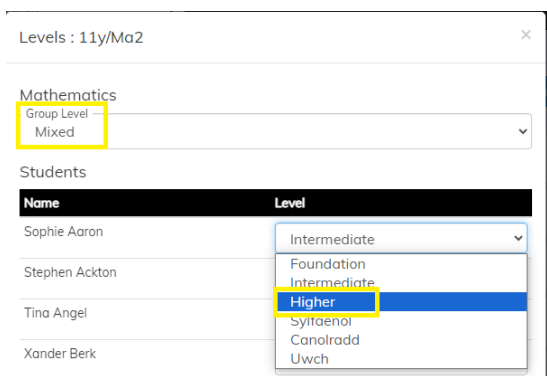

Select a teaching class that need levels assigning too, view the members of the Group by selecting Members. Then navigate to **Actions | Levels**.

Select a level most appropriate for each candidate within the class. A global level for the whole class can be selected such as Intermediate and then submit. This will assign the whole class as working at this level.

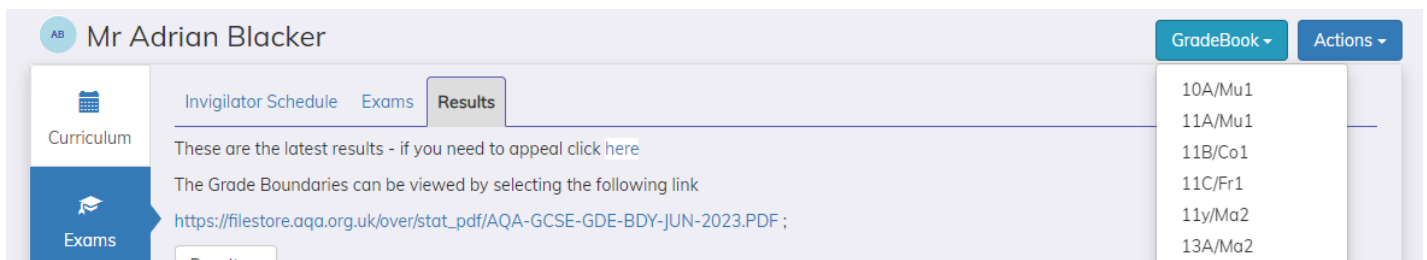

However, if the class is working at a mixed level, then select Mixed, When Mixed is selected the classroom teachers will be able to assign a level to each candidate. Once a level has been assigned to each candidate select Submit.

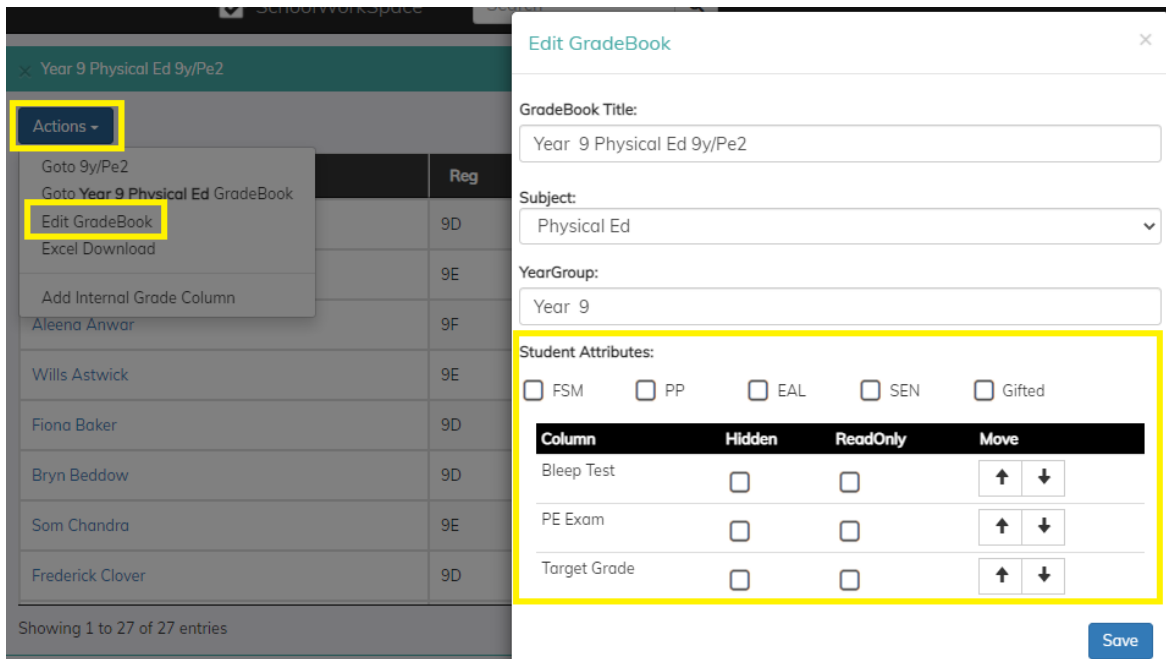

Accessing Gradebooks

If there is a need to record any NEA or Mock results/marks in Exams Assist, then this is possible. From the Staff Members homepage, you will see any Gradebooks that have been created for you by the Exams Officer. Navigate to your **Homepage | Gradebook** and select the appropriate Gradebook. Once selected complete the appropriate column.

Editing Gradebooks

To edit the gradebook select **Actions | Edit Gradebook**. From this dialog box you will be able to add student attributes such as FSM, EAL or SEN. You can also hide or make a column read-only and finally you are able to move the order of the columns by selecting the up and down arrows.

Note – The Student Attributes will only display if the school allows the data share of this data item.

Adding Exam Codes to a Gradebooks

To add exam entry codes to a gradebook, navigate to a gradebook, then select **Actions | Edit Gradebook** and enter an Exam Entry Codes in the appropriate box.

A Guide to Invigilators

There are two ways to access the invigilator schedule, the first is by opening the **Magic Link** that you have received from the examinations officer or alternatively you can log into exams assist:

<https://examsassist.co.uk>

Select **Login / Register** then **Login to SchoolWorkSpace**. Enter your email address and as you've yet to login, select **Forgot Password**, a 6-digit pin will be emailed or text to you, enter this into exams assist and you'll be prompted to create and confirm a new password.

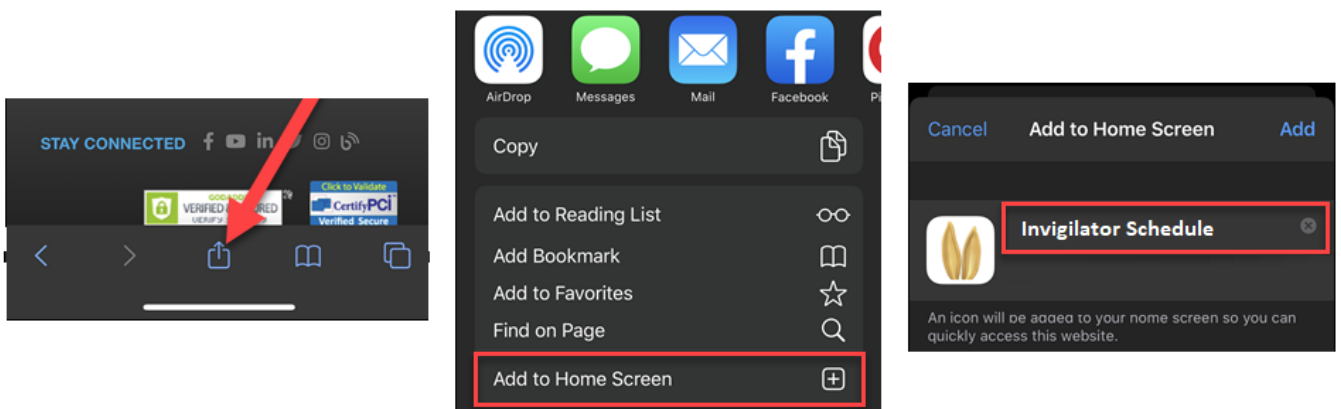

Once logged in, select **Invigilate**.

To assist you during the examination period we advise that you save this link as an **Icon** on your mobile device, this Icon would then appear on your homepage so that you don't need to refer to the email on a daily basis.

Creating the icon on an iPhone

Open the link in Safari and tap the Share Button at the bottom of the screen. Scroll down and select **Add to Home Screen** and then give the icon a new name and then press **Add**.

Creating an icon on an Android.

Open the link in 'Chrome,' tap the menu icon (3 dots in upper right-hand corner) and tap '**Add to home screen**'. You'll be able to enter a name for the shortcut and then Chrome will add it to your home screen.

Invigilator Availability

At the start of an exam season the Examination Officer (**EO**) will ask you to provide the dates that you are available to invigilate, this may include two or more seasons. On opening the link, you will be able view the available dates, you will be required to select the dates and sessions that you are available. As you provide your availability you are able to add a note against each day, use this to inform the EO of any issues you may have on a specific date. On completing the form select **Submit** at the bottom of the page.

However, if you are not available to invigilate during the season you can just select – **Not Available** or alternatively, if you are available for every date, then you can select – **Is always available**.

As the EO schedules you to a room, these allocations will appear on your schedule. Once you've been allocated to a room you will no longer be able to amend your availability for that date. If you require to amend/cancel a date you will need to contact the school to arrange this.

Past Schedule – To help you keep track of your previous schedule, this can be viewed by selecting the **Past** tab in your portal.

Invigilators Functionality

Once assigned to a room you will be able to select a room and view the exam details, invigilators and your role within the room. The full invigilator functionality will become available up to 24hrs of the exam - the attendance registers and seating plans. These are available the day before so you can assist the EO in the preparing the room. You will not be able to complete the attendance registers and other tasks until the actual day of the exam.

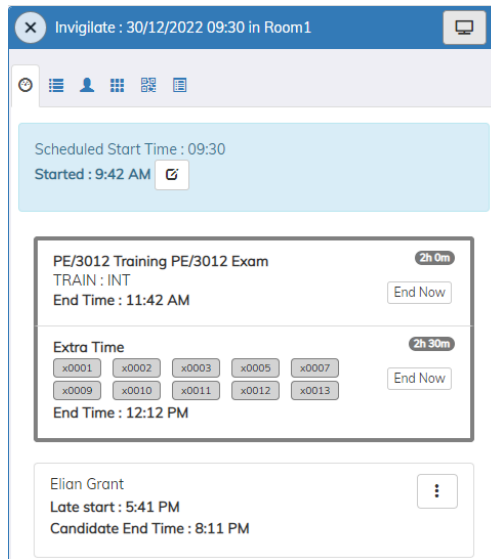

Once a room has been selected on the day of the exam you will see 6 Tabs at the top of the screen (All these tabs will only show on the day of the exam, the logs tab will only appear when an action has been taken).

Tab 1 – Overview – This will provide you with information about the exams taking place in the room. Details such as the name of the exams, length of exam, the official start as well as any candidates with Extra Time. This is where the Lead Invigilator will mark that the exam has started and when each individual exam has finished in the room.

This tab will also be where the Invigilators will be able to request either IT Support, General Assistance, Add a comment against the room or pause an exam in an emergency. If a candidate has been marked as starting the exam late or have used their SRB, these candidates including their new end times will appear in this tab. This view will help the Lead Invigilator keep a track of different end times in the Exam Room.

The computer icon at the top right corner of these screen enables the invigilator to display the **Exam Room Viewer** on a screen for the candidates to see the exam details such as start and end times. This can be used instead of putting the exam content on the whiteboard within the exam room.

Tab 2 – Checklist – Listed in this tab are the items that the school requires the invigilators to confirm that have been done in the exam room. This list will include items that need to be selected before, during and after the examination.

Note – This functionality can be assigned to the Lead Invigilator only, this is determined by the centre.

Tab 3 – Candidate List – This tab displays the names of the candidates that are sitting the exams in that room and is sorted in Candidate Number order. In this tab the invigilators/staff will be able to complete the registers by marking the candidates either present or absent. When marked absent another option will appear to mark the candidate **late** - this can be updated to late when the candidate arrives on site, this can be done by a member of staff outside of the exam room (This time can be used to prove the candidate arrived under formal supervised supervision within the 60min of the official start time). Once the candidate has been marked late, a **Late Start** button will appear, the invigilator can select this when the candidate actually starts their exam (once selected this will calculate the **End Time** and the details will appear on the overview tab). It is also possible to view the candidates that have requested a laptop, a modified paper, Extra Time and any additional notes for the candidate by selecting the **3 Dots button (Additional Actions)**.

Name	Seat	AA	Action
Ashton Jones	A5	🚩	⋮ ✓ ✖

TIP - It's possible to mark all absent candidates first for the purpose of getting these chased up and then selecting **set all Blank as Present** which can be found at the bottom of the attendance register.

Tab 4 – Invigilator Attendance – It is possible to record the attendance of the invigilator/staff within an exam room.

Tab 5 – Seating Plan – This tab provides/displays the same information as above, but rather than being displayed in a list it is shown as per seating plan for that room.

Tab 6 – QR Reader (Optional) – This is used to complete the registers by scanning the QR Code on the candidate's desk. Once you've selected this tab it will ask to access your mobile camera so it can scan the code. Allow this software to access the camera and then hold the phone above the candidate card and their details will appear on your device ready for you to mark them Present, Absent or Late.

Tab 7 – Logs – This tab displays any actions taken in the Exam Room, from completing the register, marking the candidate late or recording an SRB/Toilet Break in a room.

Access Arrangements Icons

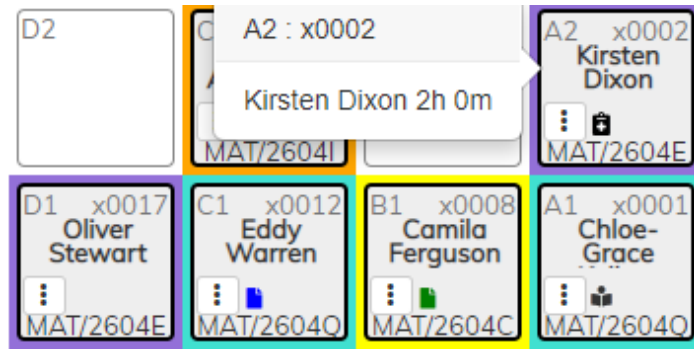

Reader		Scribe		Practical Assistant	
Supervised Rest Breaks		Signer		Computer Reader	
Prompter		Note		Medical	
ARA		Dictionary		Separate Room	
Reading Pen		Extra Time			
Green Paper		Blue Paper		Purple Paper	
Green Overlay		Blue Overlay		Purple Overlay	
Yellow Paper		Grey Paper		Pink Paper	
Yellow Overlay		Grey Overlay		Pink Overlay	
Red Paper		Orange Paper		Coloured Paper	
Red Overlay		Orange Overlay		Coloured Overlay	

If a modified paper has been ordered from the JCQ for a candidate then the icon below will appear on the seating plan, attendance register and the candidate card. If the candidate has requested either a laptop or a computer reader for their exam, then the icon below will appear in the same documents as the above.

Modified Language Paper		Laptop		Computer Reader	
--------------------------------	--	---------------	--	------------------------	--

Clash Icons

	This icon will indicate that a candidate has a clash on this date, however the exam with a yellow flag indicates that this exam is taking place at the official starting time as set by the exam board.
	This icon indicates that a candidate has a clash on this date and the exam they are currently sitting is being done at a different time as outlined by the exam board.

Additional Actions

The Action Icon will bring a pop-up box providing greater information about the candidate. The Candidate Name/Photo, a list of their Access Arrangements, Notes and finally a log of everything that has been recorded for that candidate in the exam. It's also possible to record various actions such as SRB, Toilet Break and Enter a Note.

Note – A candidate might be entitled to a modified paper, laptop or a computer reader and this may appear in their record when you select the additional action button, but the icon doesn't appear on the seating plan. The reason for this would be the candidate has not requested the use of a laptop or a computer reader for this exam.

Invigilators Speech (Optional)

There is the ability to play the invigilators speech to the candidates from the Exam Room Viewer. Centre's have the option of uploading their own speech to be played to the candidates before every exam. Once played this is recorded in the Room Logs.

Note – If the centre is using the Exam Room Viewer and the Invigilators are using their Mobile Device, it is not possible for the Mobile Device to control the audio file on the laptop. The audio file needs to be played from the device the PA is connected too.

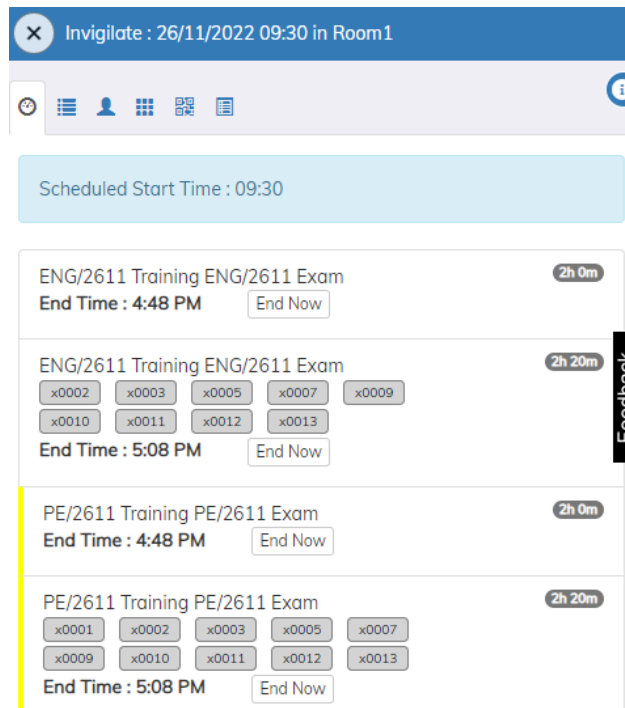

Starting and Ending the Exam

Once the attendance register has been completed and either the **Invigilator Audio File has been played or the Warning to Candidates** has been read out the next process is to start the examination. Select the **Start the Exam** button and a confirmation dialog box will appear which includes the ability to edit the start time. It's possible to edit the start time in case the exam was started later on the mobile device to what the exam board states. Once the start time has been entered the end times will all be calculated?

Once the exam has started the invigilator/roaming invigilator is able to record a number of actions against either the room or the candidate (these additional functions are only available once the exam has started, and the candidate has been marked present).

Once the exam has started it's possible to finish each exam in the room individually, if a room contains a number of exams with different end times each of these can be **ended** individually. Alternatively, if the invigilator/school doesn't wish to record this level of detail it's possible to just select **End the Exam** and this will finish all the exams in the room and give the same time for each exam in that room.

Ending an individual candidate

If a candidate has completed the exam at a different time to the others in the room i.e. finished the exam early or has access to Extra Time/SRB, then they might finish later than the others. To record this end time, navigate to the candidate and select the Actions Button. Scroll down to the available actions, select **Candidate Finished**.

Once selected, the end time will appear next to the candidate's name on the attendance register.

Show 250 entries

Cand	Name	Exam	Duration	End Time	Seat	AA	Action
x0002	Kirsten Dixon	FRE/0701	1h 0m	16:45	D2	Medical	Present
x0005	Cadie Payne	FRE/0701	1h 0m	16:28	C2	Word Processor	Present Finished 16:28

Signing off the Exam Room (Optional)

Once all exams has finished in the room and the End Exam has been selected the centre is able to configure that the room requires the Lead Invigilator to sign off that all exams were done in accordance to the JCQ regulations. Enter the time that the exam has finished, use your finger or mouse to sign and finally select Submit.

End the Exam? ×

Confirm the actual End Time for the exam.

Time the Exam Ended:

Recording Supervised Rest Break (SRB)

Once the exam has started and the candidate has been marked present it is possible for a member of staff to record when a candidate takes an SRB. As the start time is recorded against the candidate each of these breaks are added on to the end time, this means that the member of staff no longer needs to record these breaks manually and calculate the end time each time the candidate takes a break. All information is recorded in the room log too.

Amelia, Goss

Toilet Break - Out
SRB - Out

Note – The candidate must be entitled to SRB for this functionality to be available. Once an SRB has been recorded these candidates will appear on the overview and their box on the seating plan and attendance register will turn blue, this is to help the invigilator to keep track of these candidates.

Recording Toilet Breaks

It is possible for a member of staff to record that a candidate has left and returned to the exam room following a toilet break (This time doesn't get added to the SRB time). These are also recorded in the room and candidate log. To help the invigilator keep a track of these when the candidates is marked as Toilet Out their name on the seating plan and attendance register will turn blue.

21:26 Amelia, Goss : Toilet Break - Return

Adding a Comment

It is possible to add a comment against a candidate, by selecting **Add Comment**. Record any incidents that may occur with a candidate during that examination. These are also added to the candidate and room log.

Exam Room Viewer

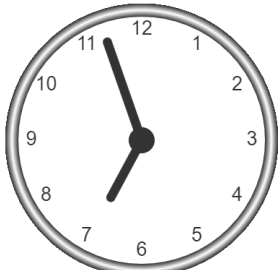

To display the exam details – Exam Name; Date; Start Time; Length of Paper; Centre Number and a Clock (Digital and Analogue) can be done from any of the Invigilator's that have been assigned to that room. One the first tab (Overview) there is a **Computer Icon** when selected this turn the view into the **Exam Room Viewer** and will go into full screen mode.

Moving a Candidate (Seat)

To ensure that the seating plan within an exam room remains a true reflection, you can move a candidate to another seat if required. Select the action button for the candidate that needs moving from either the register or seating plan, a dialog box will appear. Navigate to the **Move a Seat** drop down and then select the seat that the candidate has moved too, you will be asked to provide a reason for the move.

Moving a Candidate (Room)

Navigate to the attendance register and select the **Actions Button**. Select the **Move to Seat** then the **Change Room and Seat**.

Search for the room from the drop-down menu and select, then allocate to a seat. You will also need to provide a reason for the move.

The candidate will now be removed from your attendance Register and Seating Plan and their details will be transferred to the new room.

How to Pause an Exam (Emergency Stop)

To pause (emergency stop) an exam due to an incident or emergency in the room, navigate to the overview tab (Tab 1) and scroll down to the bottom and select the **Emergency Stop the Exam** Button. Once selected

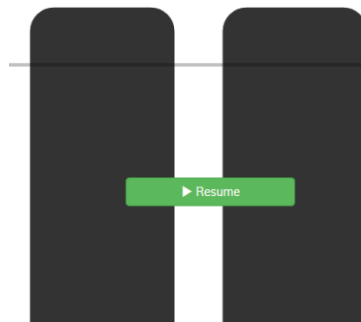

a reason for this pause will need to be provided, once submitted the clock will stop for the exam and all functionality within the invigilator link will stop until the resume button is selected.

Provide a reason for stopping the exam. The EO will also be notified of this event.

A dialog box titled "Emergency Stop the Exam" with a close button (x) in the top right corner. Below the title is the text "09:00 : Room1 - West Wing Performance Hall". There are three main sections: a pink box with the text "Stop the exam for all candidates?", a white text input field containing "Fire Alarm has sounded", and a light blue box with the text "Do not use this function for Supervised Rest Breaks". At the bottom, there is a "Close" button on the left and an "EMERGENCY STOP NOW" button on the right.

The functionality within Exam Room Viewer will become locked until the Resume button is selected. Once selected a new End Time will be calculated which will include the stopped time.

A Guide for the Parental / Candidate Online Portal

How to Log in

There is the functionality within SchoolWorkSpace for both parents and candidates to log into their portal to view their exams entries, access arrangements and timetables. These are able to be viewed in near real-time, ensuring that parents/candidates utilise this portal will reduce the amount of paper that the school produces.

There are a number of ways in which they can log into their portal – using email address registered by the school; Login Code; a google account or a Microsoft account.

Navigate to the following website:

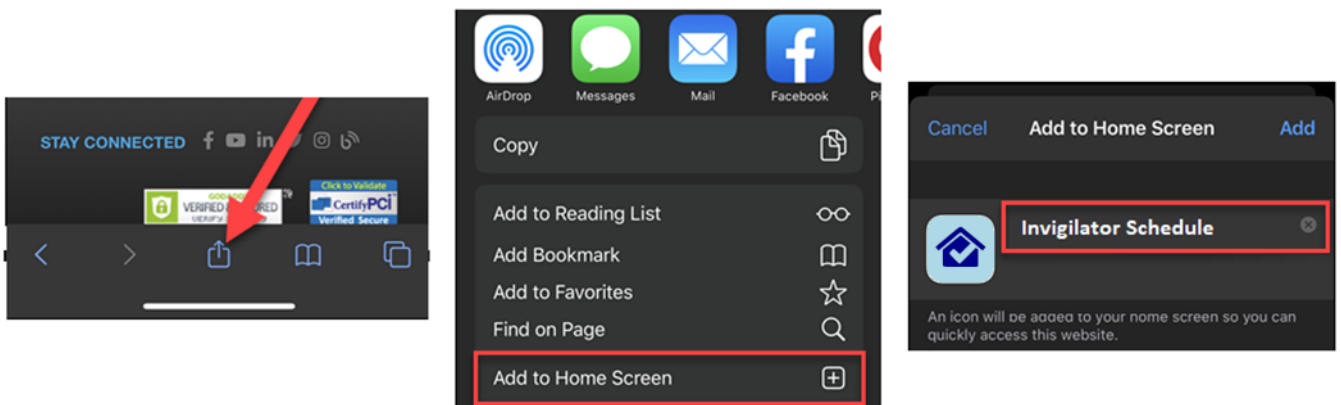

<https://examsassist.co.uk>

Select **Login / Register** then **Login to SchoolWorkSpace**. Enter your email address and as you've yet to login, select **Forgot Password**, a 6-digit pin will be emailed or text to you, enter this into exams assist and you'll be prompted to create and confirm a new password.

The parents / candidates are then advised to save this link as an **Icon** on their mobile device, this Icon would then appear on your homepage so that you don't need to refer to the email on a daily basis.

Creating the icon on an iPhone

Open the link in **Safari** and tap the **Share Button** at the bottom of the screen. Scroll down and select **Add to Home Screen** and then give the icon a new name and then press **Add**.

Creating an icon on an Android.

Open the link in 'Chrome,' tap the menu icon (3 dots in upper right-hand corner) and tap 'Add to home screen'. You'll be able to enter a name for the shortcut and then Chrome will add it to your home screen.

What can I see as a Parent or Candidate?

Once logged in you will be able to view any forthcoming exams, any groups associated and the candidate's academic timetable.

Various information available within the Exams Tab, firstly key information will be displayed, information that will appear on the exam board certificate. If any of these details are incorrect you will be able to communicate with the school and get the information updated.
